Term: There is no fixed maturity date.

Objective: The investment objective of the Fund is to provide exposure to companies across emerging markets that are weighted according to their quality characteristics and pay higher than average dividends.

The Fund is passively managed and aims to track the performance of the FTSE Emerging All Cap ex-CW ex-TC ex-REITS Dividend Growth with Quality Net Tax Index (the “Index”), before the deduction of fees and expenses.
The Index is designed to provide exposure to companies across emerging markets with higher than average dividend and quality characteristics, in accordance with its methodology.
The Fund seeks to achieve its investment objective using an optimisation/representative sampling approach and invests in a representative selection of equity securities which, taken together, are expected to have risk and performance characteristics similar to those of the Index.
The Fund may also invest in equity related securities and instruments that are not constituents of the Index but have similar risk and performance characteristics, and may use financial derivative instruments for efficient portfolio management or to assist in tracking the performance of the Index.
The Fund promotes a range of environmental and social characteristics which are met by tracking the Index. Further information on how such characteristics are met by the Fund can be found in the Fund Supplement.

In normal circumstances, only Authorised Participants may buy and sell Shares directly with the Company.
