Date of production of the KID: 15 April 2026.

What is this product?

Type

UBS (CH) Fund Solutions is a contractual umbrella fund under Swiss law of the type "Other funds for traditional investments" pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA) of 23 June 2006.

Term

This product does not have a maturity date (in other words, it is open-ended). The manufacturer may terminate the product early. The amount you would receive if such early termination took place might be lower than the amount you invested.
The recommended holding period (RHP) is displayed in the section "How long should I hold it and can I take money out early?".

Objectives

The sub-fund aims to reflect the long-term performance of gold, once the commission and charges (including the CO2 reduction costs) paid by the sub-fund have been deducted. The sub-fund invests in physical gold, generally in 12.5kg bars with purity of 995/1,000 that are classified as "carbon neutral" in accordance with the PAS 2060 – Carbon Neutrality standard. "Carbon neutral" means that no new greenhouse gases are emitted and the annual CO2 emissions for the entire life cycle of the carbon neutral gold are reduced by at least 1% p.a. To cover the costs of carbon neutrality, the fund management company buys the gold at market value plus CO2 reduction costs of USD 5.25 per ounce. UBS AG serves as the seller of carbon neutral gold. In turn, UBS AG has undertaken to buy up carbon neutral gold at any time at the market value plus USD 1.00 per ounce (CO2 neutrality premium). Investors can purchase fund units on the primary or secondary market. The issue and redemption of fund units by the fund management company or its distributors is referred to as the primary market. The purchase or sale of fund units on the exchange is referred to as the secondary market. The sub-fund's income is not distributed, but reinvested.
The fund's return depends primarily on the performance of the precious metals that are its underlyings.
The sub-fund's income is not distributed, but is reinvested.

Intended retail investor

This fund applies to retail investors with a basic financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at growing the investment value, while granting daily access to the capital under normal market conditions. With their investment in this fund, investors can satisfy medium term investment needs. The fund is suited to be acquired by the target client segments without any restriction of the distribution channel or platform.

Custodian bank

State Street Bank International GmbH, Munich, Zürich Branch

Additional information

Information on UBS Carbon Compensated Gold ETF and the available unit classes as well as the full prospectus and the current annual or semi-annual reports and other information can be obtained free of charge from the fund management company, the central administration agent, the depositary, the custodian bank, the fund distributors or online at www.ubs.com/etf. The current price is available at www.ubs.com/etf

What are the risks and what could I get in return?

Indicator

1	2	3	4	5	6	7

Lower risk **Higher risk**

The risk indicator assumes you keep the product for 5 year(s).
The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this product as 4 out of 7, which is a medium risk class.
This classifies the potential losses from future performance as medium. The past is not a reliable guide to the future, so the actual risk of loss may vary significantly.

The product can be subject to other risk factors which are not included in the summary risk indicator (SRI), such as operational, political and legal risks. See the prospectus for further details.

This product does not include any protection from future market performance so you could lose some or all of your investment.
If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performances of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		**5 Years**	
Example Investment:		**USD 10 000**	
		If you exit after 1 year	**If you exit after 5 years**
Scenarios			
Minimum	**There is no minimum guaranteed return. You could lose some or all of your investment.**		
Stress	**What you might get back after costs**	USD 4 260	USD 3 860
	Average return each year	-57.4%	-17.3%
Unfavourable	**What you might get back after costs**	USD 8 430	USD 11 760
	Average return each year	-15.7%	3.3%
Moderate	**What you might get back after costs**	USD 10 050	USD 14 280
	Average return each year	0.5%	7.4%
Favourable	**What you might get back after costs**	USD 15 390	USD 21 630
	Average return each year	53.9%	16.7%

The stress scenario shows what you might get back in extreme market circumstances.
The figures shown include all costs of the product itself. The figures do not take account of your personal tax situation, which can also have an impact on how much you receive back.
Unfavourable scenario: This type of scenario occurred for an investment between 2017 and 2022.
Moderate scenario: This type of scenario occurred for an investment between 2016 and 2021.
Favourable scenario: This type of scenario occurred for an investment between 2020 and 2025.

What happens if UBS Fund Management (Switzerland) AG is unable to pay out?

Losses are not covered by any investor compensation or guarantee scheme. In addition, in relation to State Street Bank International GmbH, Munich, Zürich Branch, which as the Fund's custodian is responsible for the safekeeping of its assets (the "Custodian"), there is a potential risk of default in the event that the Fund's assets held with the Custodian are lost. However, this risk of default is limited as the Custodian is required by law and regulation to segregate its own assets from the Fund's assets. The Custodian shall be liable to the Fund or the Fund's investors for any loss of a financial instrument held in custody by the Custodian or its delegate, unless the Custodian can demonstrate that the loss resulted from an external event beyond its control.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The table shows the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed that the product performs as shown in the moderate scenario.
- 10 000 USD is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	USD 814	USD 1 081
Annual cost impact (*)	8.0%	2.0% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 9.4 % before costs and 7.4 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to USD 500
Exit costs	3.00% of your investment before it is paid out to you.	USD 284
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.30% of the value of your investment per year. This is an estimate that is based on last year's actual costs. For products launched less than one year ago, this is an estimate based on the representation costs.	USD 30
Transaction costs		USD 0
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	USD 0

The figures shown here do not include any additional charges that may be levied by your distributor, adviser, stockbroker when trading in the secondary market or any “insurance wrapper” into which the fund may be placed. Transaction costs incurred in direct trading in the fund will be borne by eligible participants or new investors in the fund. Additional information on costs can be found in the sales prospectus at www.ubs.com/etf

How long should I hold it and can I take money out early?

Recommended holding period: 5 Year(s)

The recommended holding period for this product is 5 year(s). This is the holding period we recommend based on the risk and the expected return on the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period of the product, the more your actual risk return will deviate from the product assumptions. Depending on your needs and restrictions, a different holding period may be suitable for you. We therefore recommend that you discuss this point with your client advisor.
Investors can buy fund units directly from the issuer (primary) or by trading on a stock exchange (secondary market). The issue and redemption of fund units by the fund management company or its distributors are referred to as the primary market. The purchase or sale of fund units via the stock exchange is referred to as the secondary market.

How can I complain?

If you have a complaint about the product, the producer of the product or the person who recommended or sold you the product, please contact your customer service representative or contact us at sh-am-complaint-switzerland@ubs.com
UBS Fund Management (Switzerland) AG, Aeschenvorstadt 1, CH-4051 Basel, www.ubs.com/funds
