What is this product?

Type

The product is a UCITS - Part 1 sub-fund of a SICAV under Luxembourg law. The fund is a UCITS ETF.

Term

This product is an open-ended fund without predefined maturity. You may request the redemption of shares generally on each valuation date. The company may, however, suspend the redemption if extraordinary circumstances appear to make this necessary, taking into account the interests of the investors. Further, the company may restrict the redemption. The product may be redeemed early in certain circumstances as set out in the sales prospectus. The 1C share class of Xtrackers II EUR Investment Grade Corporate Bond Active UCITS ETF was launched in 2026.

Objectives

The fund is actively managed. The fund is managed in reference to a benchmark. The fund promotes environmental and social characteristics and is subject to the disclosure requirements of a financial product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. More ESG information is available in the sales prospectus and on the DWS website. **INVESTMENT OBJECTIVE:** The aim is for your investment to achieve before fees and expenses an excess return over a benchmark reflecting the performance of EUR-denominated, investment grade (with a rating of better or equal than Baa3/BBB-) corporate debt securities. **ALLOCATION:** In order to seek to achieve its aim, the Sub-Fund: (i) will invest at least 80% of its assets in EUR denominated investment grade corporate bonds (the "Investment Grade Bonds"); and (ii) may also invest from time to time in other fixed income securities (such as other corporate or government bonds), money market instruments (such as secured and/or unsecured deposits and shares within money market funds managed by entities within the DWS Group), collective investment schemes or other eligible assets in accordance with the Investment Restrictions (together with the Investment Grade Bonds, referred to as the "Invested Assets"). The Investment Manager for the Sub-Fund is DWS Investment GmbH. The Investment Manager has appointed DWS Investments UK Limited as Sub-Portfolio Manager for the Sub-Fund. Both the Investment Manager and Sub-Portfolio Manager will be responsible for the day-to-day investment management of the Fund, including the allocation of the Invested Assets and cash re-investments. The Invested Assets will be selected by the Investment Manager and/or Sub-Portfolio Manager with the primary aim of generating excess return over the Performance Benchmark. The portfolio management process combines top-down and bottom-up analysis, with a bias towards bottom-up analysis. Bottom-up analysis is primarily comprised of issuer and security level research. Issuer level research may consider, but is not limited to, factors such as the analyses of financial statements, including balance sheets, income statements, and cashflow statements, or the business model, as well as qualitative assessments of the management of the issuer. Security level research may consider, but is not limited to, factors such as liquidity risk, debt ranking, currency, and analysis of documents and covenants. Top-down related analysis may include, but is not limited to, aspects such as the analysis of relevant industries, which may consider but is not limited to factors such as industry trends and competitive landscape and/or macroeconomic and market conditions. The analyses conducted may consider further factors such as opportunities arising from new issues, where attractive pricing, structural features, or temporary market inefficiencies may enhance alpha. The analysis of relative value between securities issued by the same issuers and across issuers may be considered. **INVESTMENT POLICY:** The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of financial contracts (derivatives). **FURTHER INFORMATION:** Certain information (including the latest share prices of the fund, indicative net asset values and full disclosure on the composition of the fund's portfolio) is available on your local DWS website or at www.Xtrackers.com. The return of the product is reflected by the daily calculated net asset value per unit and the distribution amount if applicable. The currency of the fund is EUR. Returns and gains are not distributed but are reinvested in the fund. This fund is a sub-fund of Xtrackers II for which the sales prospectus and the periodic reports are prepared as a whole. The assets and liabilities of each sub-fund are segregated by law. As a result, assets of one sub-fund are not available in the event of claims against or insolvency of another. More share classes may be available for this fund - please refer to the relevant section of the sales prospectus for further details. You are not permitted to exchange your shares in this fund for other funds of Xtrackers. The depositary is State Street Bank International GmbH, Luxembourg Branch. More detailed information on this fund, such as the sales prospectus as well as the latest annual and semi-annual report, can be obtained free of charge online at www.etf.dws.com. These documents are available in English or German. The documents as well as other information (including the latest share prices) are available free of charge.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity to pay you.

The following is applicable if you subscribe for or settle shares in a different currency than the fund or share-class currency: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The following risks could be of particular significance for the fund: Credit risk, Derivatives risk, Bonds risk, Conflicts of interest risk, Interest rate risk, Sustainability risk, Active Fund risks. A more detailed description of risks and other general information can be found in the risk section(s) of the sales prospectus. You may lose some or all of your investment. Your risk is limited to the amount invested. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example Investment:		3 years 10.000 EUR	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	8,360 EUR -16.4 %	8,280 EUR -6.1 %
Unfavourable	What you might get back after costs Average return each year	8,440 EUR -15.6 %	8,590 EUR -4.9 %
Moderate	What you might get back after costs Average return each year	10,230 EUR 2.3 %	10,550 EUR 1.8 %
Favourable	What you might get back after costs Average return each year	10,960 EUR 9.6 %	11,830 EUR 5.8 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. For the 1 year holding period the following applies: This type of scenario (Favourable, Moderate, Unfavourable) occurred for an investment - possibly with reference to ICE BofA Euro Corporate Index ER00 Index - between (Favourable: 29.09.2023-30.09.2024, Moderate: 30.03.2018-29.03.2019, Unfavourable: 30.09.2021-30.09.2022). For the recommended holding period the following applies: This type of scenario (Favourable, Moderate, Unfavourable) occurred for an investment - possibly with reference to ICE BofA Euro Corporate Index ER00 Index - between (Favourable: 31.10.2022-31.10.2025, Moderate: 30.06.2017-30.06.2020, Unfavourable: 30.09.2019-30.09.2022).

What happens if DWS Investment S.A. is unable to pay out?

The assets of the fund are kept separately from those of the management company, DWS Investment S.A.. An insolvency or default of the management company should not result in the fund suffering any financial loss in relation to its assets. On the insolvency or default of the depositary State Street Bank International GmbH, Luxembourg Branch securities held by the depositary on behalf of the fund should be protected but the fund may suffer loss in relation to cash and certain other assets which are not protected. Cash deposits of the fund deposited with other credit institutions may cause investors to suffer a financial loss if such deposits are not covered by any existing deposit guarantee schemes. Investment in the fund is not covered by any investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario. 10.000 EUR is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	23 EUR	71 EUR
Annual cost impact (*)	0.2 %	0.2 % each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.0% before costs and 1.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 EUR
Exit costs	We do not charge an exit fee.	0 EUR
Ongoing costs taken each year		
Management fees and	0.20 % of the value of your investment per year. This is an estimate.	20 EUR

other administrative or operating costs		
Transaction costs	0.03 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	3 EUR
Incidental costs taken under specific conditions		
Performance fees	We do not charge a performance fee.	0 EUR

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the fund will pay the transaction costs related to their subscriptions and redemptions.

How long should I hold it and can I take money out early?

Recommended holding period: 3 years. The product has no minimum holding period.

This product has no required minimum holding period. The recommended holding period has been selected due to its investment strategy and because it is designed for a medium term investment horizon. It is expected that it will be possible to achieve the investment objective of the fund within this time frame. You may request the redemption of shares generally on each valuation date. No fees or penalties will be charged by the company for any such transaction.

There is no change on the risk return profile when you redeem your shares early. The asset management company may suspend the issue and redemption of shares if exceptional circumstances mean this appears necessary taking into account the investors' interests. The asset management company may use the following methods to manage liquidity risks: It may restrict redemption if the investors' redemption requests reach a previously defined threshold as of which the redemption requests can no longer be executed in the interests of all investors. By charging an anti-dilution levy, it may apportion the costs arising from issues and/or redemptions (e.g., transaction costs) to the investors whose orders caused the trades, thus reducing the risk of dilution for the fund's remaining investors. Further details can be found in the Sales Prospectus.
