What is this product?

Type:	This Investment Fund is a sub-Fund of Legal & General UCITS ETF Plc (the " Company "), an umbrella investment company with variable capital and segregated liability between Funds. The Fund is authorised in Ireland and regulated by the Central Bank of Ireland.
Term:	There is no fixed maturity date.
Objective:	The Fund is a passively managed exchange traded Fund that aims to provide multifactor exposure across global equity markets by tracking the performance of the WTW Global Equity Diversified Index on MSCI ACWI* (a custom index built by MSCI on criteria provided by WTW) (the "Index"), subject to the deduction of the ongoing charges and other costs associated with operating the Fund. The Fund promotes a range of environmental and social characteristics which are met by tracking the Index. Shares in this Share Class (the "Shares") are denominated in USD and can be bought and sold on stock exchanges by ordinary investors using an intermediary (e.g. a stockbroker). In normal circumstances, only Authorised Participants may buy and sell Shares directly with the Company. Authorised Participants may redeem their Shares on demand in accordance with the "Dealing Timetable" published on http://www.lgim.com. The Index seeks to provide higher exposure to a custom multifactor score compared to MSCI ACWI (the 'Parent Index') across both developed and emerging markets. The custom multifactor score is comprised of value, quality and momentum factors. The Index excludes companies that are involved in business activities including controversial weapons, tobacco, thermal coal mining, thermal coal-based power generation and oil sands extraction and companies that do not meet the Index Provider minimum ESG controversy score and other minimum requirements. The weights of the constituents in the Index are an outcome of the optimisation process. The Index is rebalanced on a quarterly basis. The Fund will primarily invest directly in the securities represented in the Index in similar proportions to their weightings in the Index. The Fund may also invest in (1) companies that are not constituents of the Index that have similar risk and performance characteristics to the companies contained in the Index and (2) financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on the companies contained in the Index and/or such other companies). The Fund may also engage in stock lending. This is when it lends its investments to third parties as a means of generating additional income and to off-set the costs of the Fund. The Fund's Prospectus gives more information about stock lending. This Share Class does not intend to pay dividends. Any income which may result from the Fund's investments will be re-invested into the Fund. The depositary of the Fund is the Bank of New York Mellon SA/NV, Dublin Branch. Further information about the Fund and the share class can be obtained from the Company's prospectus and the annual and semi-annual reports, which are available, in addition to the latest prices for the share class and details of any other share classes, free of charge at: www.lgim.com.
Intended Retail Investor:	This Fund is designed for investors looking for growth and income from an investment in companies across global equities, via passively investing in equities. Although investors can take their money out at any time, the Fund may not be appropriate for those who plan to withdraw their money within five years. The Fund is not designed for investors who cannot afford more than a minimal loss of their investment.
