

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

JPMorgan ETFs (Ireland) ICAV

ISIN: IE0008DO91F6

JPM Global ex US Research Enhanced Index Equity Active UCITS ETF - EUR Hedged (acc)

a Share Class of JPMorgan ETFs (Ireland) ICAV – Global ex US Research Enhanced Index Equity Active UCITS ETF. The management company is JPMorgan Asset Management (Europe) S.à r.l.

Objectives and Investment Policy

Investment Objective: The objective of the Sub-Fund is to achieve a long-term return in excess of the Benchmark by actively investing primarily in a portfolio of companies, globally, excluding the United States of America ("US").

Investment Policy: The Sub-Fund pursues an actively-managed investment strategy.

The Sub-Fund aims to invest at least 67% of its assets (excluding assets held for ancillary liquidity purposes) in equity securities of companies, globally, excluding issuers that are domiciled in, or carry out the main part of their activity in the US. Issuers of these securities may be located in any non-US country, including emerging markets.

The Sub-Fund systematically includes ESG analysis in its investment decisions on at least 90% of securities purchased. Pursuant to the Investment Manager's ESG analysis, at least 51% of the Sub-Fund's Net Asset Value is invested in companies with positive environmental and/or social characteristics that follow good governance practices as measured through the Investment Manager's proprietary ESG scoring methodology and/or third party data.

In addition to ESG Integration, as an SFDR Article 8 fund, the Sub-Fund promotes environmental and/or social characteristics.

The Sub-Fund also invests at least 20% of the Sub-Fund's Net Asset Value in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.

In addition, the Investment Manager evaluates and applies values and norms based screening to implement exclusions on certain industries and companies based on specific ESG criteria and/or minimum standards of business practice based on international norms. To support this screening, the Investment Manager relies on third party provider(s) who identify a company's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. Further details on the screening process can be found below and in the Sub-Fund's full exclusion policy which can be found on <https://am.jpmorgan.com/content/dam/jpm-am-aem/emea/regional/en/policies/exclusion-policy/jpm-etf-icav-global-ex-us-rei-equity-active-exclusion-policy-ce-en.pdf>.

The Sub-Fund will seek to outperform the Benchmark over the long-term. The Benchmark consists of large and mid-capitalisation stocks issued by companies in developed markets globally, excluding the US ("Benchmark Securities"). The constituents and countries may be subject to change over time. Further details on the Benchmark, including its components and performance, are available at <http://www.msci.com>. The Benchmark has been included as a point of reference against which the performance of the Sub-Fund may be measured. The Sub-Fund will bear a close resemblance to its Benchmark.

The Sub-Fund will not seek to track the performance of or replicate the Benchmark, rather the Sub-Fund will hold a portfolio of equity securities (which may include but will not be limited to Benchmark Securities) which is actively selected and managed with the aim of delivering an investment performance which exceeds that of the Benchmark over the long-term. While the Sub-Fund is managed with the aim of delivering an investment performance (net of fees) which exceeds that of the Benchmark over the long-term, there is no guarantee of any outperformance. In order to seek to achieve this, the Investment Manager may overweight the securities which it considers to have the highest potential to outperform the Benchmark and underweight or not invest at all in securities which the Investment Manager considers most overvalued.

The risk characteristics of the portfolio of securities held by the Sub-Fund, such as volatility levels, will be broadly equivalent to the risk characteristics of the Benchmark.

The Sub-Fund may invest in assets denominated in any currency and currency exposure in the Sub-Fund will be typically unhedged.

The Sub-Fund may, for efficient portfolio management purposes, use financial derivative instruments ("FDI").

The Investment Manager also integrates financially material environmental, social and governance ("ESG") issues as part of the Sub-Fund's investment process ("ESG Integration"). ESG Integration is the systematic inclusion of ESG issues in investment analysis and investment decisions with the goals of managing risk and improving long-term returns. ESG Integration by itself focuses on financial materiality and is therefore only part of a broader investment process. It is only one of the factors alongside the other factors, as described in the "Investment Policy" section, to be considered in portfolio construction.

USD is the base currency of the Sub-Fund.

This Share Class seeks to minimise the effect of currency fluctuations between the currency of certain (but not necessarily all) assets of the Sub-Fund and the Reference Currency of this Share Class (EUR).

Redemption and Dealing: Shares of the Sub-Fund are traded on one or more stock exchanges. Certain market makers and brokers may subscribe and redeem Shares directly with JPMorgan ETFs (Ireland) ICAV, and are referred to as "Authorised Participants". Other investors who are not Authorised Participants can purchase and sell Shares daily on a recognised stock exchange or over-the-counter.

Benchmark: MSCI World ex USA Index.

Distribution Policy: This Share Class will not pay dividends.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.jpmorganassetmanagement.ie.

Risk and Reward Profile

The above rating is based on the historic volatility of the simulated Net Asset Value of this Share Class over the last five years and may not be a reliable indication of the future risk profile of this Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

Why is this Share Class in this category? This Share Class is classified in category 6 because its simulated Net Asset Value has shown high fluctuations historically.

OTHER MATERIAL RISKS

- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions, sometimes rapidly or unpredictably. If a company goes through bankruptcy or a similar financial restructuring, its shares in issue typically lose most or all of their value.
- Since the instruments held by the Sub-Fund may be denominated in currencies other than the Base Currency, the Sub-Fund may be affected unfavourably by exchange control regulations or fluctuations in currency rates. For this reason, changes in currency exchange rates can affect the value of the Sub-Fund's portfolio and may impact the value of the Shares.

- In respect of unhedged Share Classes in a currency other than the Base Currency of the Sub-Fund, the value of the Share Class will be subject to exchange risk in relation to the Base Currency of the Sub-Fund.
- Sustainability risk is defined in the SFDR as "an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment". The Management Company considers sustainability risk as risks that are reasonably likely to materially negatively impact the financial condition or operating performance of an issuer and therefore the value of that investment. In addition, sustainability risk may increase the Sub-Fund's volatility and/or magnify pre-existing risks to the Sub-Fund. Sustainability risk considerations are part of ESG Integration and the likely impacts of sustainability risks on the returns of the Sub-Fund are assessed in reference to the Investment Manager's approach to sustainability risk management in the Sub-Fund's investment process. For the Sub-Fund, sustainability risks are considered to have a lower likely impact on returns relative to other sub-funds under the ICAV. This is due to the sustainability risk mitigating nature of the relevant investment strategies. Investors should refer to the "Sustainability Risks" section of the Prospectus for further information.
- The Sub-Fund seeks to provide a return above the Benchmark; however the Sub-Fund may underperform the Benchmark.
- Further information about risks can be found in the "Risk Information" section of the Prospectus.
- Movements in currency exchange rates can adversely affect the return of your investment. The currency hedging used to minimise the effect of currency fluctuations may not always be successful.

Charges		● Investors who are not Authorised Participants may have to pay brokerage commissions or other charges determined and imposed by their brokers when buying or selling Shares on stock exchange(s). Information on charges can be obtained from your broker. Authorised Participants dealing directly with JPMorgan ETFs (Ireland) ICAV will pay related transaction costs. ● Charges are used to pay the costs of running this Share Class, including the costs of marketing and distribution. These charges reduce the potential growth of the investment. ● The ongoing charge figure is estimated and is based on the expected total of charges. The UCITS' annual report for each financial year will include detail on the exact charges made. ● Further information about charges can be found in the "Fees and Expenses" section of the Prospectus.
