

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

JPMorgan ETFs (Ireland) ICAV

ISIN: IE000ANHU3J3

JPM Global Emerging Markets Research Enhanced Index Equity SRI Paris Aligned Active UCITS ETF - USD (acc)

a Share Class of JPMorgan ETFs (Ireland) ICAV – Global Emerging Markets Research Enhanced Index Equity SRI Paris Aligned Active UCITS ETF. The management company is JPMorgan Asset Management (Europe) S.à r.l.

Objectives and Investment Policy

Investment Objective: The objective of the Sub-Fund is to achieve a long-term return in excess of MSCI Emerging Markets SRI EU PAB Overlay ESG Custom Index* ("the Benchmark") by actively investing primarily in a portfolio of emerging market companies, while aligning with the objectives of the Paris Agreement.

Investment Policy: The Sub-Fund pursues an actively-managed investment strategy.

The Sub-Fund aims to invest its assets primarily in equity securities of companies that are domiciled in, or carry out the main part of their economic activity in, an emerging market country.

The Sub-Fund has sustainable investment as its objective and will invest a minimum of 90% of the Sub-Fund's portfolio in securities that qualify as "sustainable investments" for the purposes of the SFDR.

The Sub-Fund will seek to outperform the Benchmark over the long-term, while aligning with the objectives of the Paris Agreement. The Benchmark is comprised of large and mid-capitalisation stocks issued by issuers in certain emerging market countries ("Benchmark Securities"). The constituents of the Benchmark are selected from the constituents of the MSCI EM Index (USD) (the "Investible Universe") and the Benchmark aims to meet the requirements for EU Paris-aligned Benchmarks as defined in the EU Climate Benchmarks Regulation and provide lower carbon emission exposure relative to the Investible Universe with a view to achieving the long-term global warming objectives of the Paris Agreement. The Benchmark is an MSCI Custom index and excludes certain issuers based on an exclusion list provided by JP Morgan Asset Management.

The Benchmark has been included as a point of reference against which the performance of the Sub-Fund may be measured. The Sub-Fund will bear a close resemblance to its Benchmark.

The Sub-Fund will not seek to track the performance of or replicate the Benchmark, rather the Sub-Fund will hold a portfolio of equity securities (which may include but will not be limited to the Benchmark Securities) which is actively selected and managed with the aim of delivering an investment performance which exceeds that of the Benchmark over the long-term.

In order to seek to achieve this, the Investment Manager may overweight the securities which it considers to have the highest potential to outperform the Benchmark and underweight or not invest at all in securities which the Investment Manager considers most overvalued.

The Sub-Fund's portfolio will be constructed such that it aims to meet the Benchmark's obligations under the EU Climate Benchmarks Regulation, as described above. Consequently the Sub-Fund will also seek to achieve a reduction of its greenhouse gas intensity of at least 7% on average per annum and an overall reduction of its greenhouse gas intensity compared to the Investible Universe of at least 50%. In addition, whilst the Investment Manager may underweight, or not invest at all in, Benchmark

Securities, the Investment Manager will not actively underweight High Climate Impact Sectors as a whole, relative to the Investible Universe.

The Investment Manager evaluates and applies values and norms based screening to implement exclusions. To support this screening, the Investment Manager relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens.

Further details on the screening process can be found in the Sub-Fund's full exclusion policy which can be found on the Website (www.jpmorganassetmanagement.ie).

The Sub-Fund seeks to assess the impact of ESG factors through a forward looking investment approach, active engagement with companies, where possible, and seek to positively influence business practices to improve sustainability. The Investment Manager focuses on key risk factors, including, for example, accounting and tax policies, disclosure and investor communications, shareholder rights, remuneration and social and environmental factors. The ESG assessment using these risk factors is integrated into the investment process described above.

If a security ceases to qualify as a Sustainable Investment, the Investment Manager will sell it as soon as practicable in the best interests of the Sub-Fund and in accordance with its exclusion policy.

The Sub-Fund systematically includes ESG criteria, including the consideration of sustainability risk, in investment analysis and investment decisions on all securities purchased (excluding cash, cash equivalents (certificates of deposit, commercial paper and fixed rate bonds issued by governments which are rated investment grade), money market funds and derivatives for efficient portfolio management).

The risk characteristics of the portfolio of securities held by the Sub-Fund, such as volatility levels, will be broadly equivalent to the risk characteristics of the Benchmark.

The Sub-Fund may, for efficient portfolio management purposes, use financial derivative instruments.

USD is the base currency of the Sub-Fund.

Redemption and Dealing: Shares of the Sub-Fund are traded on one or more stock exchanges. Certain market makers and brokers may subscribe and redeem Shares directly with JPMorgan ETFs (Ireland) ICAV, and are referred to as "Authorised Participants". Other investors who are not Authorised Participants can purchase and sell Shares daily on a recognised stock exchange or over-the-counter.

Benchmark: MSCI Emerging Markets SRI EU PAB Overlay ESG Custom Index*.

Distribution Policy: This Share Class will not pay dividends.

Risk and Reward Profile

Lower risk **Higher risk**
Potentially lower reward Potentially higher reward

The above rating is based on the historic volatility of the simulated Net Asset Value of this Share Class over the last five years and may not be a reliable indication of the future risk profile of this Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

Why is this Share Class in this category? This Share Class is classified in category 6 because its simulated Net Asset Value has shown high fluctuations historically.

OTHER MATERIAL RISKS

- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions, sometimes rapidly or unpredictably. If a company goes through bankruptcy or a similar financial restructuring, its shares in issue typically lose most or all of their value.
- Since the instruments held by the Sub-Fund may be denominated in currencies other than the Base Currency, the Sub-Fund may be affected unfavourably by exchange control regulations or fluctuations

in currency rates. For this reason, changes in currency exchange rates can affect the value of the Sub-Fund's portfolio and may impact the value of the Shares.

- Emerging markets may be subject to increased political, regulatory and economic instability, less developed custody and settlement practices, poor transparency and greater financial risks. Emerging market currencies may be subject to volatile price movements. Emerging market securities may also be subject to higher volatility and lower liquidity than developed market securities respectively.
- The Sub-Fund may invest in China A-Shares through the China-Hong Kong Stock Connect Programmes which are subject to regulatory change, quota limitations and also operational constraints (as set out in the Prospectus) which may result in increased counterparty risk.
- REITs and real estate related investments are subject to the risks associated with the ownership of real estate which may expose the relevant Sub-Fund to increased liquidity risk, price volatility and losses due to changes in economic conditions and interest rates.
- Sustainability risk may materially negatively impact the financial condition or operating performance of an issuer and therefore the value of that investment. In addition, it may increase the Sub-Fund's volatility and/or magnify pre-existing risks to the Sub-Fund.
- The Sub-Fund seeks to provide a return above the Benchmark; however the Sub-Fund may underperform the Benchmark.
- Further information about risks can be found in the "Risk Information" section of the Prospectus.

Charges	
One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from this Share Class over a year	
Ongoing charge	0.30%
Charges taken from this Share Class under certain specific conditions	
Performance fee	None

- Investors who are not Authorised Participants may have to pay brokerage commissions or other charges determined and imposed by their brokers when buying or selling Shares on stock exchange(s). Information on charges can be obtained from your broker. Authorised Participants dealing directly with JPMorgan ETFs (Ireland) ICAV will pay related transaction costs.
- Charges are used to pay the costs of running this Share Class, including the costs of marketing and distribution. These charges reduce the potential growth of the investment.
- The ongoing charge figure is estimated and is based on the expected total of charges. The UCITS' annual report for each financial year will include detail on the exact charges made.
- Further information about charges can be found in the "Fees and Expenses" section of the Prospectus.

Past Performance

- Past performance is not a guide to future performance.
- There is insufficient performance data available to provide a chart of annual past performance.
