What is this product?

Type:	This Investment Fund is a sub-Fund of Legal & General UCITS ETF Plc (the " Company "), an umbrella investment company with variable capital and segregated liability between Funds. The Fund is authorised in Ireland and regulated by the Central Bank of Ireland.
Term:	There is no fixed maturity date.
Objective:	The investment objective of the Fund is to provide exposure to the short term Pound Sterling-denominated government bond market in the United Kingdom. The Fund is passively managed and aims to track the performance of the J.P. Morgan Government Bond Index (GBI) United Kingdom Short-term Custom Maturity Index (the "Index"), before the deduction of fees and expenses. The Index is designed to provide exposure to Pound Sterling denominated government bonds issued by the United Kingdom with shorter remaining maturities, in accordance with its methodology. The Fund seeks to achieve its investment objective using an optimisation/representative sampling approach and invests in a representative selection of bond securities which, taken together, are expected to have risk and performance characteristics similar to those of the Index. The Fund may also invest in bond related securities and instruments that are not constituents of the Index but have similar risk and performance characteristics, and may use financial derivative instruments for efficient portfolio management or to assist in tracking the performance of the Index. This Share Class aims to pay semi-annual dividends out of the Fund's net income by electronic transfer. Shares in this Share Class (the "Shares") are denominated in GBP and can be bought and sold on stock exchanges by ordinary investors using an intermediary (e.g. a stockbroker). In normal circumstances, only Authorised Participants may buy and sell Shares directly with the Company. Authorised Participants may redeem their Shares on demand in accordance with the "Dealing Timetable" published on http://www.lgim.com. The depositary of the Fund is the Bank of New York Mellon SA/NV, Dublin Branch. Further information about the Fund and the share class can be obtained from the Company's prospectus and the annual and semi-annual reports, which are available, in addition to the latest prices for the share class and details of any other share classes, free of charge at: www.lgim.com.
Intended Retail Investor:	The Fund is designed for investors looking for a combination of growth and income from an investment in eligible fixed-rate, pound sterling-denominated United Kingdom government bonds maturing within the next 3 months to 5 years which can form part of their existing savings portfolio. Although investors can take their money out at any time, the Fund may not be appropriate for those who plan to withdraw their money within five years.

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	6 GBP	30 GBP
Annual cost impact (*)	0.1%	0.1% (each year)

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.1% before costs and 0.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
