What is this product?

Type

UBS (Lux) Fund Solutions is an undertaking for collective investment in transferable securities (UCITS) incorporated in the legal form of an investment company with variable capital (SICAV) under Part I of the Luxembourg 2010 Law on undertakings for collective investment. The fund is a UCITS ETF.

Term

The Product does not have a maturity date (the Product has been established for an indefinite period of time). The Manufacturer may terminate the Product early. The amount you will receive upon early termination may be less than the amount you invested.

The recommended holding period (RHP) is displayed in the section "How long should I hold it and can I take money out early?".

Objectives

The Fund is passively managed and will take proportionate exposure on the components of the MSCI Europe SRI Low Carbon Select 5% Issuer Capped Index (Net Return) either through direct investments in all or substantially all of the component securities and/or through the use of derivatives in particular where it may not be possible or practicable to replicate the index through direct investments or in order to generate efficiencies in gaining exposure to the index. The Index is designed to measure the performance of best-in-class Environmental, Social and Governance ('ESG') companies across 15 developed markets countries in Europe while avoiding companies with negative social or environmental impact. This best-in-class approach excludes at least 20% of the least well-rated securities as against the standard index universe (for further details please refer to the index description in the prospectus which currently provides for an exclusion of 75% of the least well rated securities). The Fund does not benefit from a French SRI label.

The sub-fund will invest its net assets predominantly in shares, transferable securities, money market instruments, units of undertakings for collective investment, deposits with credit institutions, structured notes listed or dealt in on a regulated market and other assets eligible under the prospectus. This sub-fund promotes environmental and/or social characteristics but does not have a sustainable investment objective. The Fund will not enter into any securities lending.

The return of the fund depends mainly on the performance of the tracked index.

Fund income is not paid out, but instead will be reinvested.

Intended retail investor

This fund applies to retail investors with a basic financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at growing the investment value and addresses a preference for Sustainable Investing, while granting daily access to the capital under normal market conditions. With their investment in this fund, investors can satisfy medium term investment needs. The fund is suited to be acquired by the target client segments without any restriction of the distribution channel or platform.

Depositary

State Street Bank International GmbH, Luxembourg Branch

Lower riskHigher risk

The risk indicator assumes you keep the product for 5 year(s).
The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this product as 4 out of 7, which is a medium risk class.
This rates the potential losses from future performance at a medium level. The past may be a poor predictor of the future and, hence, the actual risk of losing money may vary significantly.

The product may be exposed to further risk factors such as operational, political and legal risks which are not included in the summary indicator. Please refer to the prospectus for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performances of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 Years	
Example Investment:		EUR 10 000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

Moderate	What you might get back after costs	EUR 10 920	EUR 15 880
	Average return each year	9.2%	9.7%
Favourable	What you might get back after costs	EUR 14 930	EUR 20 410
	Average return each year	49.3%	15.3%

The stress scenario shows what you might get back in extreme market circumstances.
The figures shown include all costs of the product itself. The figures do not take account of your personal tax situation, which can also have an impact on how much you receive back.
Unfavourable scenario: This type of scenario occurred for an investment between 2024 and 2025.
Moderate scenario: This type of scenario occurred for an investment between 2018 and 2023.
Favourable scenario: This type of scenario occurred for an investment between 2020 and 2025.

What happens if UBS Asset Management (Europe) S.A. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to State Street Bank International GmbH, Luxembourg Branch as depositary of the Fund, which is responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The table shows the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed that the product performs as shown in the moderate scenario.
- 10 000 EUR is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 20	EUR 128
Annual cost impact (*)	0.2%	0.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 9.9% before costs and 9.7% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year

How long should I hold it and can I take money out early?

Recommended holding period: 5 Year(s)

The recommended holding period for this product is 5 year(s). This is our recommended holding period based on the risk and expected return with the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period for the product, the more your actual return will also deviate from the product assumptions. Depending on your needs and limitations, a different holding period may be suitable for you. Consequently, we recommend that you discuss this issue with your customer service representative.

Investors other than Authorized Participants may not subscribe shares directly with UBS (Lux) Fund Solution, but may purchase and sell shares, through an intermediary, on one of the stock exchanges listed for the share class on the website www.ubs.com/etf. Direct redemptions with UBS (Lux) Fund Solutions are however possible on each business day in Luxembourg. Authorized Participants may subscribe and redeem shares with UBS (Lux) Fund Solutions under the conditions detailed in the relevant Authorized Participant Agreement.
