Letter to Shareholders

Annual report as of 31 December 2021

We are pleased to present the 20th annual report for UBS (Lux) Fund Solutions formerly UBS ETF covering the reporting period from 1 January 2021 to 31 December 2021. Despite the ongoing pandemic, 2021 was a positive year for most global equity markets with performance being supported by a strong rebound in economic growth. On the contrary, bond markets delivered more tepid returns during 2021 due to hawkish central bank policy shifts and elevated inflation. Fund AuM increased during the year.

The Fund range saw total net inflows of EUR 5.6 billion, increasing the total AuM in UBS ETFs to EUR 47.0 billion as at 31 December 2021.

In 2021, we focused on increasing our offering in ESG-focused ETFs. We launched two new ETFs, one tracking the MSCI Europe Socially Responsible and the other, the MSCI Switzerland IMI Socially Responsible Index. These two launches were equipped with several unhedged and currency-hedged share classes. Besides these two ESG-focused ETF additions, we also launched an ETF covering Chinese Healthcare and Technology stocks, based on a benchmark offered by Solactive. Finally, and as part of our ordinary review to identify small-sized sub-funds and share classes, we decided to close down 18 share classes on various ETFs. In April 2021, the company was renamed from "UBS ETF" to "UBS (Lux) Fund Solutions" in order to launch other funds besides ETFs.

In 2021, UBS ETF remained the fourth largest ETF provider in Europe, as the entire industry moved strongly towards Sustainable ETF investing. The UBS AM ETF business remains a leader in SI investing and the 2nd largest provider of these solutions in the region. Almost all of our ETF core markets in Europe registered best-ever NNM figures, with Italy, Spain, Benelux and Germany leading the way. We continued to see positive individual tickets from larger institutional clients in Germany and Italy as well. The business remains firmly focused on providing our clients with solutions and services which are best in class and which remain market leading. The continued growth of our leading position in Europe in Sustainable ETF Investing, meeting our client's Fixed Income investment demands, as well as servicing all of our investors in the after-sales space in the areas of regulatory support and reporting remain essential for the continued success of the business. UBS Asset Management continues to be strategically committed to growing its Passive offering – its market leading ETF offering is front and center in these efforts.

The first quarter of 2021 delivered two surprises: faster-than-expected vaccine rollouts and bigger-than-expected US fiscal stimulus. The backdrop of vaccination-led reopening's, plus substantial monetary and fiscal stimulus, drove expectations for a faster economic recovery and further gains for equities. Markets ended the quarter on a high note, with a 4.6% return delivered by global equities over the quarter. Meanwhile, the yield curve steepened as the market continued to price in higher inflation in the future.

The improved growth outlook and signs of re-emerging inflation pushed 10-year US Treasury yields sharply higher. Yields rose by 83 basis points from 0.91% at the beginning of the year to 1.74% at the end of March. The increase has been driven both by rising inflation expectations and by an increase in real rates on the prospect of substantial further US fiscal stimulus. The combination of higher growth and higher yields prompted a shift into more cyclical sectors of the equity market and a rotation out of growth into value stocks. It also triggered periodic bouts of volatility on repositioning flows. This was particularly evident in late January when social media-driven retail buying prompted a squeeze on short positions in heavily shorted individual stocks, generating broader offsetting sales as investors covered positions.

Within fixed income, government bond yields rose across developed markets during the quarter as investors re-priced higher expectations for inflation and brought forward the expected timing and magnitude of short end rate hikes from central banks. In credit markets, USD investment grade suffered from the impact of higher government bond yields, and ended the quarter with negative returns. Spread compression in the higher-beta-lower-rated credit segments offset the negative impact of rising rates with USD High Yield and EUR High Yield continuing to post positive returns over the quarter.

In the second quarter, inflation data continued to rise, reflecting base effects, higher energy prices, and COVID-19 pandemic-related supply disruptions. But markets appeared confident that the rise in inflation would not be sustained and was unlikely to force central banks to tighten monetary policy prematurely. Equities hit fresh record highs in June, as US yields declined and fears over inflation appeared to abate.

The figures stated in this report are historical and not necessarily indicative of future performance.

Letter to Shareholders (continued)

Annual report as of 31 December 2021

The highlight of the quarter was the Federal Reserve's (Fed) policy meeting, which showed officials forecasting two rate hikes in 2023 (up from zero in March). While this more hawkish message caused a brief sell-off in equities, investors took the move in stride. Despite signs of accelerating growth, the European Central Bank (ECB) said it would maintain its "significantly higher" pace of bond buying under the Pandemic Emergency Purchase Program (PEPP) over the coming months. Meanwhile, other central banks-including the Bank of Canada, Bank of England (BoE), and Norges Bank-struck a similar tone to the Fed's.

The advance in stocks was supported by a range of factors. While the Fed and other central banks were gradually laying the groundwork for a tapering of policy support, top officials remained consistent that this is still some way off. Although the US consumer price index (CPI) continued to increase rapidly, investors overall seemed convinced by central bank assurances that inflation will fall soon as yearly base effects and higher energy prices are removed from the calculation.

Within fixed income, sovereign bond yields demonstrated a range of performance. US 10-year yields fell while yields rose in Europe. Corporate bonds outperformed government bonds as inflation fears took hold.

The third quarter's environment was characterised by an inflection point in global growth momentum, and persistent disruption to global trade and supply changes associated with rising COVID-19 Delta-variant caseloads, particularly in Asia. Despite some softer data, key central banks pointed to a more robust environment relative to the height of the COVID-19 pandemic, and sign-posted tapering of quantitative easing. With many emergency US fiscal supports due to expire, much focus was given to the size and nature of any further fiscal stimulus and the prospect of a US debt ceiling in the fourth quarter. Moreover, policy tightening and increased regulation within certain sectors in China led to stresses later in the period, with the country's largest real estate developer defaulting on debt obligations. Risk assets fared well through much of the quarter only to be unnerved by these risks in September.

Global stocks were on track for a positive third quarter, finished up in July, and strongly up in August, with many indices reaching record highs. This reflected optimism over economic growth, earnings, and a conviction that central bank policy would remain supportive. But after touching an all-time peak in early September, global stocks have trended lower for the month. The magnitude of falls in September overall more than erased gains for the quarter. This reflected a wide array of concerns, from worries over the pace of growth; current valuations; persistent inflationary pressures; to anxiety over a faster-than-expected move towards tightening by central banks against a robust, albeit deteriorating backdrop.

Inflationary pressures, largely stemming from continued COVID-19 disruption, persisted longer than many had forecast, with bond yields grinding higher, unsettling broader risk assets. The main driver for US treasuries was the Federal Open Market Committee (FOMC) meeting late in September. The central bank surprised the markets by delivering a more hawkish message than expected. Chair Powell finally gave more information on tapering and announced that the Federal Reserve (Fed) might announce a tapering already in November when the FOMC meets again and should then be done by mid-2022. The meeting also pointed to a faster pace of rate rises than the market had been anticipating. In the Eurozone, rates were also slightly higher over the quarter as relatively sharp moves higher in yields during September offset declines earlier in the period. During its meeting in September, the European Central Bank (ECB) Governing Council modestly reduced the pace of bonds purchased under the Pandemic Emergency Purchase Program (PEPP) given the growth and inflation outlook. But at the ECB forum at the end of September, President Lagarde stressed that she sees the current spike in inflation as transitory and that monetary policy should not overreact to these shocks.

On credit, developed market high-yield debt outperformed investment grade bonds over the quarter, while emerging market hard currency debt experienced a similar trend to emerging market equities, with losses over the quarter reflecting their sensitivity to interest rate rises, and developments in China which led to Asian credit exposures being the key laggard with material spread widening late in the quarter.

Global economic activity was in the midst of a re-acceleration from the third quarter to fourth quarter as the impact of the COVID -19 Delta variant subsided before a new variant, Omicron, jeopardized near-term growth prospects in late November. The impact of the COVID-19 pandemic continues to be

Letter to Shareholders (continued)

Annual report as of 31 December 2021

uneven across economies depending on geography, the timing of outbreaks, the composition of activity, magnitude and quality of vaccinations and boosters, and mobility restrictions imposed by authorities. So far, the Omicron variant appears to be having a smaller and shorter drag on growth than the Delta variant.

Global inflation remains uncomfortably high, well above most central banks' targets. A lot of inflation right now is being driven by durable goods, an area that typically has a limited or negative impact on inflation. Supply chain snarls, such as the chip shortage, and elevated demand for goods as COVID-19 constrains the availability of services are the biggest drivers of this dynamic. Some developed market central banks (BOE, Norges, RBNZ) lifted policy rates during the quarter, primarily due to hot inflation but also a large degree of healing in labour markets.

Financial markets moved violently on low volume as the COVID-19 Omicron variant quickly rose to the forefront of market concerns in late November on the heels of a US holiday. 10-year Treasury yields declined by roughly 30 basis points and global stocks slumped by 4%. Much of these moves retraced by year-end, with a sharp improvement in risk appetite seeing global equities end 2021 just shy of record highs.

The performance of equity styles over the final month of the year suggests markets were balancing concerns related to the broad-based removal of monetary policy stimulus expected in 2022 with a growth outlook that remains above-trend despite the emergence of the Omicron variant. Quality and value were the best performing factors near year end, while more speculative pockets of the equity market came under pressure.

Within fixed income, the nascent repricing of short term US interest rates during September accelerated aggressively to the upside in the final three months of 2021. Two-year Treasury yields jumped 45 basis points, as traders fully priced in three rate hikes from the Fed in 2022. The Treasury curve flattened meaningfully, with 5s30s falling more than 40 basis points to eclipse lows not seen since the market turmoil of March 2020. Longer-term bond yields in the US and Germany were little changed over the course of the quarter, as investors questioned the duration and terminal rate of central bank tightening cycles.

Credit generally performed worse than equities in the quarter, as US high yield spreads tightening marginally while US investment grade spreads widened immaterially.

Our Sub-Funds seek to closely track the performance of the underlying market indices. The investment returns of the Sub-Funds reflected the underlying market environment in 2021 and are shown in the table on the following page, expressed in the base currency of each share class as well as the tracking difference and the tracking error.

We thank you for the confidence you have shown in our family of UBS (Lux) Fund Solutions funds. We look forward to your continued support and to meeting your investment goals in the years ahead.

Sincerely,

24 February 2022

Chairman of the Board of Directors

** Sub-Fund's name change took place during the reporting year, see Note 1 for further details.

*** The ETF Share Class launched during the reporting year, see Note 1 for further details.

**** The ETF Share Class was launched less than 12 months before the end of the reporting year. Therefore, no tracking error (ex post) has been calculated for this ETF Share Class.

(a) effective 1 December 2021 the index changed from MSCI China ESG Universal 5% Issuer Capped Index (Net Return) (NU723009) to MSCI China ESG Universal Low Carbon Select 5% Issuer Capped Total Return Net (NU738333).

(b) effective 1 September 2021 the index changed from SBI® Foreign AAA-BBB 1-5 Index (Total Return) (SF15T) to SBI® ESG Foreign AAA-BBB 1-5 Total Return (SESF5T).

(c) effective 1 September 2021 the index changed from SBI® Foreign AAA-BBB 5-10 Index (Total Return) (SF51T) to SBI® ESG Foreign AAA-BBB 5-10 Total Return (SEF51T).

1) The figures relating to the performances of the Sub-Funds reflect the percentages changes of official NAV's per shares (cum dividends) over the reporting period. 31 December was the last official NAV's per shares unless otherwise stated. The same period was used for the figures relating to the performance of the tracked index.

2) The tracking difference is attributable to fund expenses (see "TER"), as well as non reclaimable withholding taxes and to generation of securities lending income.

The Sub-Fund's portfolio manager aims to achieve a level of tracking accuracy whereby the expected annual difference in returns, after expenses, between the performance of the shares of a Sub-Fund and that Sub-Fund's index will not exceed 1% under normal market conditions. However, exceptional circumstances may arise which cause a Sub-Fund's tracking accuracy to exceed 1%.

3) Tracking error: annualised standard deviation.

The Sub-Fund's portfolio manager aims to keep the tracking error, defined as the volatility of the tracking difference between the performance of the shares of a Sub-Fund and that Sub-Fund's index, below or equal to 1% under normal market conditions. However, exceptional circumstances may arise which cause a Sub-Fund's tracking error to exceed 1%.

Tracking error calculation:

The tracking error for the last 12 months is calculated as follows: $\text{STANDARD DEVIATION}(\text{Monthly Excess calculated each month over a 12-month period}) \times \text{SQUARE ROOT}(12)$

4) Total Expense Ratio (TER): this ratio is calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming units.

1) The figures relating to the performances of the Sub-Funds reflect the percentages changes of official NAV's per shares (cum dividends) over the reporting period. 31 December was the last official NAV's per shares unless otherwise stated. The same period was used for the figures relating to the performance of the tracked index.

2) The tracking difference is attributable to fund expenses (see "TER"), as well as non reclaimable withholding taxes and to generation of securities lending income.

The Sub-Fund's portfolio manager aims to achieve a level of tracking accuracy whereby the expected annual difference in returns, after expenses, between the performance of the shares of a Sub-Fund and that Sub-Fund's index will not exceed 1% under normal market conditions. However, exceptional circumstances may arise which cause a Sub-Fund's tracking accuracy to exceed 1%.

3) Tracking error: annualised standard deviation.

The Sub-Fund's portfolio manager aims to keep the tracking error, defined as the volatility of the tracking difference between the performance of the shares of a Sub-Fund and that Sub-Fund's index, below or equal to 1% under normal market conditions. However, exceptional circumstances may arise which cause a Sub-Fund's tracking error to exceed 1%.

Tracking error calculation:

The tracking error for the last 12 months is calculated as follows: $\text{STANDARD DEVIATION}(\text{Monthly Excess calculated each month over a 12-month period}) \times \text{SQUARE ROOT}(12)$

4) Total Expense Ratio (TER): this ratio is calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming units.

* The ETF Share Class launched during the reporting year. Please see more details in Note 1 of the 2019 Annual Report.

** The ETF Share Class was launched less than 12 months before the end of the reporting year. Therefore, no tracking error (ex post) has been calculated for this ETF Share Class.

*** Management fee changes took place during the reporting year. Please see more details in Note 3 of the 2019 Annual Report.

**** Effective 1 April 2019 the index changed from Markit iBoxx € Liquid Corporates Index (IB8A) to Bloomberg Barclays Euro Area Liquid Corporates Index (BELQTRU).

1) The figures relating to the performances of the Sub-Funds reflect the percentages changes of official NAV's per shares (cum dividends) over the reporting period. 31 December was the last official NAV's per shares unless otherwise stated. The same period was used for the figures relating to the performance of the tracked index.

2) The tracking difference is attributable to fund expenses (see "TER"), as well as non reclaimable withholding taxes and to generation of securities lending income.

The Sub-Fund's portfolio manager aims to achieve a level of tracking accuracy whereby the expected annual difference in returns, after expenses, between the performance of the shares of a Sub-Fund and that Sub-Fund's index will not exceed 1% under normal market conditions. However, exceptional circumstances may arise which cause a Sub-Fund's tracking accuracy to exceed 1%.

3) Tracking error: annualised standard deviation.

The Sub-Fund's portfolio manager aims to keep the tracking error, defined as the volatility of the tracking difference between the performance of the shares of a Sub-Fund and that Sub-Fund's index, below or equal to 1% under normal market conditions. However, exceptional circumstances may arise which cause a Sub-Fund's tracking error to exceed 1%.

Tracking error calculation:

The tracking error for the last 12 months is calculated as follows: $\text{STANDARD DEVIATION}(\text{Monthly Excess calculated each month over a 12-month period}) \times \text{SQUARE ROOT}(12)$

4) Total Expense Ratio (TER): this ratio is calculated in accordance with the Swiss Funds & Asset Management Association (SFAMA) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

The performance of the Sub-Fund is calculated in accordance with Swiss Funds & Asset Management Association (SFAMA) guidelines.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming units.

Independent auditor's report

To the Shareholders of
UBS (Lux) Fund Solutions
49, Avenue J.F. Kennedy
L-1855 Luxembourg

Opinion

We have audited the financial statements of UBS (Lux) Fund Solutions (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and the statement of investments as at 31 December 2021 and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the EU Regulation N° 537/2014, the Law of 23 July 2016 and ISAs are further described in the "Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters

How our audit addressed the Key audit matter

Valuation of investment portfolio

Valuation of investment portfolio is considered to be a Key Audit Matter as potential misstatements could have a significant impact as investments comprise virtually all of the Fund's net assets and are the source of income, gains and losses.

- Obtaining an understanding and evaluating the key controls that have been implemented over the valuation process for of all investment securities. This includes obtaining the service auditor's report of the Administrator and identifying the key controls in place at the Administrator over the investment valuation process.
- Performing an independent valuation testing for all securities as at 31 December 2021.

Existence of Investment portfolio

Existence of investment portfolio is considered to be a Key Audit Matter as potential misstatements could have a significant impact as investments comprise virtually all of the Fund's net assets and are the source of income, gains and losses.

- Obtaining an understanding and evaluating the key controls that have been implemented over the reconciliation process of all investment securities. This includes obtaining the service auditor's report of the Administrator and identifying the key controls in place at the Administrator over the investment reconciliation process.
- Obtaining independent confirmations of all investment securities held at year-end and investigating any material differences identified to confirm the existence of these securities.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund and of those charged with governance for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and of each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 and with the ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the “réviseur d'entreprises agréé” to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d'entreprises agréé”. However, future events or conditions may cause the Fund or any of its sub-funds (except for the sub-fund where a decision to close exists) to cease to continue as a going concern.

- In respect of sub-fund where a decision to close exists, we conclude on the appropriateness of the Board of Directors of the Fund's use of the non-going concern basis of accounting. We also evaluate the adequacy of the disclosures describing the non-going basis of accounting and reasons for its use. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé".
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter.

Report on other legal and regulatory requirements

We have been appointed as "réviseur d'entreprises agréé" at the General Meeting of the Shareholders on 15 April 2021 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is 1 year.

We confirm that the prohibited non-audit services referred to in EU Regulation No 537/2014 were not provided and that we remained independent of the Fund in conducting the audit.

We provided the following permitted services in addition to the statutory audit:

- Issuance of the long form report in the context of CSSF Circular 02/81;
- Issuance of contribution / redemption in kind reports.

Annual report as of 31 December 2021

Note 1 Description of the Fund

UBS (Lux) Fund Solutions, formerly UBS ETF (the "Company") was incorporated in the Grand Duchy of Luxembourg as an open-ended investment company (a "Société d'Investissement à Capital Variable") on 7 September 2001 for an unlimited period under the original name of "Fresco". The Company is governed by the Luxembourg Law of 10 August 1915 on commercial companies, as amended, and by Part I of the Luxembourg Law of 17 December 2010 on undertakings for collective investments, as amended. Accordingly, each Sub-Fund has been established for an unlimited period. The registered office of the company is established at 49, Avenue J.F. Kennedy, L-1855 Luxembourg.

The Company has appointed UBS Fund Management (Luxembourg) S.A. to act as its management company (the "Management Company") with effect as of 1 July 2012.

The Company's Articles of Incorporation (the "Articles") have been published in their original version in the Mémorial, Recueil des Sociétés et Associations (the "Mémorial") dated 11 October 2001. The notarial deed containing the minutes of the extraordinary general meeting held on 29 November 2004 deciding the change of the denomination of the company into UBS ETF has been published in the Mémorial dated 23 December 2004. Additionally, the notarial deed containing the minutes of the extraordinary general meeting held on 27 December 2005, amending the Articles related to the compliance by the Company with the rules of the amended directive 85/611/EEC, has been published in the Mémorial dated 30 January 2006. Finally, the notarial deed containing the minutes of the extraordinary general meeting held on 18 January 2016, amending the Articles as to allow for the issuance of registered shares only has been published in the Mémorial dated 7 April 2016. All bearer shares were converted to registered shares as of 8 February 2016. Moreover, the consolidated version of the Articles has been deposited with the Luxembourg company register. On 7 April 2021 an extraordinary meeting of shareholders was held, amending the Articles, in order to, inter alia, update outdated references to laws and regulations contained and change the name of the Company from "UBS ETF" to "UBS (Lux) Fund Solutions. Articles has been published in the Mémorial dated 30 April 2021.

The Company has been established to provide investors with an opportunity to purchase Shares in its Sub-Funds, the investment objective of each of which is to aim to track a specific Index. Each Sub-Fund aims to replicate or track, before expenses, the price and income performance of its Index by holding a portfolio of transferable securities that comprises all or substantially all of the component securities of its Index.

Each Sub-Fund will have Shares listed on one or more Listing Stock Exchanges to be an Exchange Traded Fund ("ETF"). With the exceptions detailed in the prospectus, only institutions qualifying as Authorised Participants are able to subscribe or redeem Shares by delivery of in kind stocks, which mostly are stocks composing the relevant index or versus cash. Those subscriptions and redemptions minimise fund turnover and lower trading expenses. A secondary market is created through such Authorised Participants. Persons who are not Authorised Participants are able to buy or sell Shares in a Sub-Fund on a Listing Stock Exchange at prices which should approximate to the Indicative Intra-Day NAV per Share from other investors in Shares who are acting as market makers or broker/dealers. In order to allow participants in the secondary market to have access to a real-time estimate of the Daily NAV per Share, an Indicative Intra-Day NAV per Share is calculated by a calculation agent.

In order to allow participants in the secondary market to have access to a real-time estimate of the Daily NAV per Share, an Indicative Intra-Day NAV per Share is calculated by a calculation agent.

Note 1 Description of the Fund (continued)

JDRs are negotiable securities which indicate ownership of shares issued by foreign companies. They are listed on the Tokyo Stock Exchange, can be traded like domestic Japanese stocks, and give investors access to UBS (Lux) Fund Solutions listed in Europe. All of the UBS (Lux) Fund Solutions now listed on the TSE are transparent indexing solutions, following the UCITS guidelines established in Europe.

Seven of the ten UBS (Lux) Fund Solutions track major European equity indices. The remaining ETFs replicate the MSCI USA, the MSCI Pacific (ex Japan) and the MSCI World indices. A complete list of the funds which will be listed in Tokyo can be found below.

Note 2 Summary of Significant Accounting Policies

A) Presentation of Financial Statements

The Financial Statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg.

B) Main Investment Valuation Principles

Securities listed on a recognised stock exchange or dealt in on any other Regulated Market are valued at their last available closing prices, or, in the event that there are several such markets, on the basis of their last available closing prices on the principal market for the relevant security provided that such closing prices used are normally the same as those used by the Index Provider in calculating the value of each Sub-Fund's Index, but in the event that the last available price does not truly reflect the fair market value of the relevant securities, the value of such securities is defined by the Board of Directors based on the reasonably foreseeable sales price determined prudently and in good faith.

Securities not listed or traded on a stock exchange or not dealt in on another Regulated Market are valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors.

The liquidating value of futures, forward or options contracts traded on exchanges or on other Regulated Markets are based upon the last available settlement prices of these contracts on exchanges and Regulated Markets on which the particular futures, forward or options contracts are traded by the Company; provided that if a futures, forward or options contract cannot be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors may deem fair and reasonable.

Annual report as of 31 December 2021

Note 2 Summary of Significant Accounting Policies (continued)

C) Treatment of Currencies

The books and records of each Sub-Fund are denominated in the Base Currencies. All assets and liabilities of the Sub-Funds expressed in a currency other than the Base Currency are converted into the Base Currency at the exchange rate prevailing on the principal Regulated Market of such asset on the Dealing Day preceding the Valuation Time.

In order to prepare combined financial statements, financial statements of each Sub-Fund that is not EUR denominated have been converted into EUR at the following exchange rates:

1 EUR = 1.4365 CAD	1 EUR = 8.8660 HKD
1 EUR = 1.0362 CHF	1 EUR = 130.9542 JPY
1 EUR = 7.2478 CNY	1 EUR = 1.5331 SGD
1 EUR = 0.8396 GBP	1 EUR = 1.1372 USD

D) Security Transactions and Investment Income

The net realised gain or loss on portfolio securities sold or paid out in kind as part of the redemption price for shares is determined on the average cost basis.

The assets of the Company include all stocks, stock dividends, cash dividends and cash distributions receivable by the Company to the extent that information therein is reasonably available to the Company and all interest accrued on any interest-bearing portfolio securities owned by the Company, except to the extent that it is included or reflected in the principal amount of such security. Dividends and interest income are accrued net of related withholding tax.

E) Options and Future Contracts

For the purpose of efficient portfolio management, the Company may enter into future contracts as set forth in the prospectus.

Initial margin deposits made upon entering into future contracts are included in deposits on financial future contracts in the Statement of Net Assets. The unrealised appreciation or depreciation on open future contracts is calculated as the difference between the contract price at trade date and the current day price on the last Business Day of the reporting year or period.

For the purpose of efficient portfolio management, the Company may furthermore purchase and write (sell) options as set forth in the prospectus.

The risk associated with purchasing an option is that the Company pays a premium whether or not the option is exercised. Additionally, the Company bears the risk of loss of the premium and any change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of portfolio securities acquired through the exercise of call options is increased by premium paid. The proceeds from portfolio securities sold through the exercise of put options are decreased by the premiums paid.

When the Company writes an option the premium received by the Company is recorded as a liability and is subsequently adjusted to the current market value of the option written. The Company records premiums received from written options that expire unexercised on the expiration date as realised gains from option transactions. The difference between the premium and the amount paid on the effective closing purchase transaction, including brokerage commissions, is also treated as a realised gain, or if the premium is less than the amount paid for the closing purchase transaction, as a realised loss.

If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Company has realised a gain or a loss.

If a written put option is exercised, the premium reduces the cost basis of the security purchased by the Company.

Notes to Financial Statements

Annual report as of 31 December 2021

Note 2 Summary of Significant Accounting Policies (continued)

E) Options and Future Contracts (continued)

In writing covered options, the Company bears the market risk of unfavourable change in the price of the security underlying the written option. Exercise of an option written by the Company could result in the Company selling or buying a security at a price different from the current market value. Losses from written market index options may be unlimited.

As of 31 December 2021, the Company had no outstanding options contracts and had outstanding future contracts as disclosed in the Schedule of Investments.

F) Forward Foreign Exchange Contracts

As described in the prospectus, each Sub-Fund is authorised to enter into forward foreign exchange contracts in order to protect a Sub-Fund against adverse movement in the value of a Sub-Fund's Base Currency. Each Sub-Fund may enter into contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date as a hedge or crosshedge against either specific transactions or portfolio positions.

The aggregate principal amounts are reflected net in the accompanying Statement of Net Assets if a Sub-Fund intends to settle the contract prior to delivery. All commitments are marked-to-market at the applicable translation rates and any resulting unrealised gains or losses are recorded in each Sub-Fund's financial statements.

Each Sub-Fund/share class records realised gains or losses at the time the forward foreign exchange contract is offset by entry into a closing transaction or extinguished by delivery of the currency. Risks may arise upon entering these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the Base Currency.

As of 31 December 2021, the Company had outstanding forward foreign exchange contracts as disclosed in the Schedules of Investments.

G) Swap Contracts

The Company may enter into swap contracts in which the Company and the counterparty agree to exchange the returns generated by a security, instrument, basket or index thereof for the return generated by another security, instrument, basket or index thereof. The payments made by the Company to the counterparty and vice versa are calculated by reference to a specific security, index, or instrument and an agreed upon notional amount. The relevant indices include, but are not limited to, currencies, fixed interest rates, prices and total return on interest rate indices, fixed income indices and stock indices.

The commitment arising on a swap transaction is equal to the value of the net position under the contract marked to market daily.

As of 31 December 2021, the Company had no outstanding swap contracts.

H) Cross sub-fund investments

As of 31 December 2021, the Company had no cross investment.

Note 3 Agreements

For all ETF share classes, each Sub-Fund pays a Management Fee. The Management Fee is allocated by the Company among the Sub-Funds and paid directly by the Company to the Depositary and to the Management Company. The Management Company will pay out of its fees the company administrator, the portfolio manager and the distributor, each of which is a service provider.

Notes to Financial Statements

Annual report as of 31 December 2021

Note 3 Agreements (continued)

The Management Fee also includes the costs for the Sub-Funds' administration (comprising the costs of the Company administrator and depositary bank), asset management and distribution, as well as other costs and expenses incurred in the Sub-Fund's course of business, as detailed in the Prospectus.

The Management Fee is a flat fee calculated on the average daily NAV of the Sub-Fund attributable to the relevant class of shares and is payable monthly in arrears.

Note 4 Taxation

Investors should be aware that tax regulations and their application or interpretation by the relevant taxation authorities can change periodically. The following should not be taken as constituting legal or tax advice. Investors should obtain information and, if necessary, should consult their professional advisers on the possible tax or other consequences of buying, holding, transferring or selling the Shares under the laws of their countries of origin citizenship, residence or domicile.

Under current laws and practice, the Company is not liable to any Luxembourg income tax, nor are dividends paid by the Company liable to any Luxembourg withholding tax.

No stamp duty or other tax is payable in Luxembourg on the issue of shares by the Company.

In general the Directors intend that each Fund available to UK investors will be certified by HM Revenue & Customs in the UK as reporting funds. The reporting fund status will remain in place permanently provided that the annual reporting requirements are satisfied. In broad terms, a "reporting fund" is an offshore fund that meets certain annual reporting requirements to HM Revenue & Customs and its investors. The Directors intend to manage the affairs of the Company so that these annual duties are met and will continue to be met on an ongoing basis.

Each Sub-Fund of the Company is subject to taxation on capital gains, interest and dividends in certain jurisdictions in which each Sub-Fund invests. It is the policy of each Sub-Fund to accrue for such taxes when the dividend is declared or interest is earned. At each valuation date, taxation on unrealised appreciation of securities is accrued for at applicable rates.

The Common Reporting Standard ("CRS") has been developed by the OECD to address the issue of offshore tax evasion on a global basis. Prospective investors will be required to provide to the Fund information about themselves and their tax status prior to investment in order to enable the Fund to satisfy its obligations under CRS, and to update that information on a continuing basis. Prospective investors should note the Fund's obligation to disclose such information to the Luxembourg tax authority. The Luxembourg tax authorities will exchange the information with other tax authorities in participating CRS jurisdictions on an annual basis. Each investor acknowledges that the Fund may take such action as it considers necessary in relation to such investor's holding in the Fund to ensure that any withholding tax suffered by the Fund and any other related costs, interest, penalties and other losses and liabilities arising from such investor's failure to provide the requested information to the Fund is economically borne by such investor.

German equity ratios are calculated and distributed daily.

FATCA is the Foreign Account Tax Compliance Act which aims to gather information on overseas accounts held by US Persons and ultimately ensure that the correct amount of tax is paid by US taxpayers.

FATCA enforces reporting obligations on foreign Financial Institutions ("FIs") where these accounts are held.

UBS (Lux) Fund Solutions has been classified as a Sponsored Investment Entity. The sponsoring entity is UBS Fund Management (Luxembourg) S.A. with the GIIN: 9D0VT6.00000.SP.442

Section 871(m) of the US Tax Code requires withholding (up to 30%, depending on whether a treaty applies) on certain financial instruments to the extent that the payments or deemed payments on the financial instruments are contingent upon or determined by reference to U.S.-source dividends. Under these regulations, withholding may be required even in the absence of any actual dividend-related payment or adjustment made pursuant to the terms of the instrument. If the Company becomes subject to a withholding tax as a result of 871(m), the value of the Shares held by the Shareholders may be materially affected. All prospective investors/Shareholders should consult with their own tax advisors regarding the possible implications of 871(m) on an investment in the Company.

DAC6 – Disclosure requirements for reportable cross-border tax arrangements

On 25 June 2018, Council Directive (EU) 2018/822 (“DAC6”) entered into force introducing rules regarding the mandatory automatic exchange of information in the field of taxation in relation to reportable cross-border arrangements (“RCBAs”). DAC6 is intended to provide the tax authorities of EU member states with comprehensive and relevant information about potentially aggressive tax-planning arrangements with the aim that this information will enable the authorities to react promptly against harmful tax practices and close loopholes by enacting legislation or by undertaking adequate risk assessments and carrying out tax audits.

The DAC6 obligations apply from 1 July 2020, but may require reporting of arrangements implemented between 25 June 2018 and 30 June 2020. The Directive generally requires EU intermediaries to report to their local tax authorities information about RCBAs, including details of the arrangement as well as identification information about the involved intermediaries and relevant taxpayers, i.e. the persons to whom the RCBA is made available. Subsequently, the local tax authorities exchange the information with the tax authorities of other EU member states. As such, the Fund may be legally required to file information that is within its knowledge, possession or control on any RCBA to the respective tax authorities. This legislation is capable of applying to arrangements that do not necessarily constitute aggressive tax planning.

Note 5 Distribution

Within the limits provided by Luxembourg law, the Board of Directors determines how the income of each Sub-Fund shall be dealt with, and may from time to time declare distributions. The Board of Directors may decide to pay interim dividends in compliance with the conditions set forth by Luxembourg law.

The Company intends for each Sub-Fund to distribute its net income in order to achieve the maximum tracking accuracy of the relevant Index. An income equalization amount will be calculated by reference to the amount of the Daily NAV Per Share representing the accrued net income (or deficit) at the time when a subscription or a redemption in kind is made so that the dividend representing the net investment income corresponds to the net income return of the Index.

For UK dis share classes, as defined in the sales prospectus, Net Investment Income used for determination of distributions may be different than Net Investment Income as per accounting records due to UK tax reporting requirements.

During the period from 1 January 2021 to 31 December 2021, the Company resolved to pay to all shareholders of the Sub-Funds mentioned below dividends which are mainly composed of the income net of all costs and expenses incurred by the respective Sub-Fund as detailed in the following table.

Note 6 Transactions by the Company

As a result of each Sub-Fund typically receiving (or delivering) securities through in kind subscriptions (or redemptions) made by Authorized Participants or versus cash, Sub-Funds will normally not incur high levels of investment transactions. In accordance with the investment policy of each Sub-Fund investment transactions may be entered into periodically by the Company in seeking to achieve the Sub-Fund's Investment Objectives.

Subject to the investment policy established by the Board of Directors, the Portfolio Manager of each Sub-Fund is responsible for the execution of each Sub-Fund's investment transactions and the allocation of the brokerage commissions and will select brokers who will provide the best overall service to the Company. The Company has no obligation to deal with any specific broker or group of brokers in

execution of transactions in securities for a Sub-Fund. However, the Company contemplates that a substantial amount of such transactions will be conducted through Authorized Participants or their affiliates or affiliates of the relevant Portfolio Manager; provided always that any such person will endeavor to transact such transactions on a best execution basis. Certain transactions may be subject to a commission or dealer mark-up which may not be the lowest commission or spread available.

Note 7 Securities Lending

Securities lending is the temporary transfer of securities from the lender (UBS (Lux) Fund Solutions) to a third party borrower through an appointed lending agent. In exchange for the lent security the borrower provides collateral, prior to the delivery of securities, and pays a fee over the period of the loan. All loans within the lending program are open and rolled daily such that they can be terminated on demand.

UBS (Lux) Fund Solutions engage in securities lending for selected, physically replicated Funds with the aim of reducing the investor's net costs. Securities lending with UBS (Lux) Fund Solutions is always overcollateralised with at least 105% margin across all asset classes. An additional safeguard, introduced 1 April 2014, is that on loan balances are capped at 50% of each Sub-Fund's AUM except for UBS (Lux) Fund Solutions – EURO STOXX 50 UCITS ETF. For this Sub-Fund on-loan balance is capped at 25% of the sub-fund's AUM.

Effective 4 May 2017, Sub-Funds tracking fixed Income Indices and "ESG", "Paris Aligned" and "Socially Responsible" indexes were not in the security lending program anymore.

In general, lending may only be effected via the Securities Lending Agent (State Street Bank International GmbH, Frankfurt Branch) with the protection of an indemnity against borrower default provided for by State Street Bank and Trust Company. Collateral is held in a depositary account that is ring-fenced from the lending agents balance sheet. Mark to markets take place on a daily basis to ensure that the required margin levels are consistently maintained. Whilst State Street Bank and Trust Company provides a borrower indemnity and carefully selects its underlying list of borrowers an additional level of oversight is provided for by UBS Credit & Risk to structure a bespoke approved borrower list.

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions cannot be sold, re-invested or pledged.

It should be noted that securities lending is subject to a certain risk where the borrower does not return the borrowed securities according to their obligation, and where the value of the collateral provided does not cover the costs of repurchase of the securities. In such cases, State Street Bank and Trust Company, under the terms of the borrower default indemnity, shall cover the cost of purchasing the replacement securities, subject to certain conditions.

Note 15 Commission arrangements

During the year ended 31 December 2021, no commission sharing arrangements (CSAs) were entered into on behalf of UBS (Lux) Fund Solutions.

Note 16 Transaction Fees

Transaction Fees are the brokerage costs and commissions and correspondence fees for transferring securities or investments or other interests.

Note 17 Risk Management

In terms of risk management the Board of Directors of the Management Company decided to adopt the commitment approach as a method of determining the global exposure.

Note 18 Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the shareholders, the Company, the Management Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Company, Management Company and/or depositary can elect to make themselves subject to the jurisdictions of the countries in which the shares were bought and sold. The English version of the prospectus is the authoritative version. This prospectus may also be translated into other languages. To the extent that there is any inconsistency between the English language prospectus and a version in another language, the English language prospectus will prevail, except, to the extent required by the law of any jurisdiction where the shares are sold.

Note 19 Replication Strategy

Our approach to passive equity investment is to use full replication where possible depending on the characteristics of the benchmark index, the size of portfolio and the client's desired tracking accuracy. In some situations, the portfolio manager may utilize stratified sampling where the portfolio manager deems this to be more efficient.

We typically utilize "stratified sampling" approach for our passive fixed income funds. "Stratified Sampling" is a quantitative based process, bolstered with qualitative input from our portfolio managers, that aims to construct an optimal portfolio that efficiently replicates benchmark risk characteristics with fewer securities that are sufficiently liquid and diversified. However, for certain cases, the optimal portfolio may be achieved by full replication.

In practice, the majority of our Equity ETFs are typically full replication (holding all or virtually all the underlying constituents at weights at or close to the index) and Fixed Income ETFs utilize stratified sampling.

As at 31 December 2021 the following Fixed Income sub-funds utilize full replication:

UBS (Lux) Fund Solutions – Bloomberg Euro Inflation Linked 1-10 UCITS ETF
UBS (Lux) Fund Solutions – Bloomberg Euro Inflation Linked 10+ UCITS ETF
UBS (Lux) Fund Solutions – Bloomberg TIPS 1-10 UCITS ETF

Note 20 Significant events during the reporting period (continued)

Cross Border Directive

On 2nd August 2021, the EU Cross Border Distribution of Funds Directive (EU 2019/1160) came into effect. Notable changes include the new concept of pre-marketing, a de-notification process to cease cross-border fund marketing and changes around the local facilities available to retail investors. Where applicable, UBS Asset Management has amended its internal processes accordingly. As of 1st of August 2019, the EU Regulation on Cross-border Fund Distribution (EU 2019/1156) entered into force, which introduced requirements around marketing communications. On 2nd February 2022, ESMA's guidelines on marketing communications started to apply. UBS updated the content and format of marketing materials and the associated production processes to align to the revised requirements.

Note 21 Subsequent events

Central Securities Depositories Regulation

The European Union has adopted a settlement discipline regime under Regulation (EU) No 909/2014 and the settlement discipline regulatory technical standards with phased compliance dates from February 2022 onwards ("CSDR"). CSDR aims to reduce the number of settlement fails that occur in EEA central securities depositories (CSDs) and to address settlement fails where they occur. The implementation of the CSDR settlement discipline regime for the Company when it enters into in-scope transactions may result in increased operational and compliance costs being borne directly or indirectly by the Company. CSDR may also affect liquidity and increase trading costs associated with relevant securities.

Appendix I - Supplementary Information (unaudited) (continued)

The Company has collateral both bilaterally (State Street Bank and Trust) and via tri-party agents (Bank of New York and JP Morgan Chase). In the case of Bank of New York and JP Morgan Chase agents, State Street Bank and Trust delegates some collateral management duties to these tri-party agents. In all cases the depository has delegated collateral management duties to State Street Bank and Trust. State Street Bank and Trust are then permitted to further delegate responsibilities to tri-party agents if they see fit.

Appendix II - Remuneration Policy (unaudited)

Remuneration disclosure

The Board of Directors of UBS Fund Management (Luxembourg) S.A. (the "Management Company" or the "AIFM") has adopted a remuneration policy (the "Policy") whose objectives are:

on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under

(i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the "UCITS Law") transposing the UCITS Directive 2009/65/EC (the "UCITS Directive") as amended by Directive 2014/91/EU (the "UCITS V Directive");

(ii) the Alternative Investment Fund Managers Directive ("AIFMD") 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;

(iii) the ESMA's guidelines on sound remuneration policies under the UCITS Directive - ESMA/2016/575 and ESMA's guidelines on sound remuneration policies under the AIFMD - ESMA/2016/579 both published on 14 October 2016;

(iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;

(v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);

(vi) the Commission Delegated Regulation 2017/565/EC of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);

(vii) the CSSF Circular 14/585, transposing the ESMA Guidelines 2013/606 on remuneration policies and practices (MiFID ESMA Guidelines);

and on the other hand, to comply with the UBS Group AG (the "UBS Group") Total Reward Principles.

The Policy is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Policy of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at <https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html>

The Policy is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/the AIFM. In March 2021, the Policy has been updated to integrate sustainability risks. Last approval by the Board of Directors took place on 4 November 2021. No material changes were made to the Policy.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration policy and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organization and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;

Appendix II - Remuneration Policy (unaudited) (continued)

- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements);

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

Remuneration of Management Company/AIFM staff

Quantitative Disclosures

The table below provides an overview of the aggregate total remuneration to staff of the Management Company in respect of the financial year 2021 (pre-audited) and the number of beneficiaries.

EUR 1000	Fixed remuneration	Variable remuneration	Total remuneration	Nb of beneficiaries
All staff	9,262	1,338	10,600	95
- whereof Identified Staff	3,761	752	4,513	24
- thereof Senior Management*	1,465	350	1,815	8
- thereof Other Identified Staff	2,296	402	2,698	16

*Senior Management includes the CEO, the Conducting Officers, the Head of Compliance, the Branch Manager and the Independent Director.

Remuneration of delegates staff

As market or regulatory practice develops UBS AM may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBS fund disclosures in that same year.

For the year ending 31 December 2020 (last available information), the aggregate total remuneration paid by all the Investment Manager to their Identified Staff in relation to the Fund amounted to EUR 342,338 of which EUR 207,827 represented the variable remuneration (4 beneficiaries).

Appendix III - Sustainable Finance Disclosure Regulation (unaudited)

Sustainable Finance Disclosure Regulation

On 10 March 2021 the Sustainable Finance Disclosure Regulation (EU) 2019/2088 ("SFDR") came into effect. The prospectus and KIIDs have been updated with the classification of the funds to reflect their level of ESG integration.

The following funds are passively managed, promote environmental characteristics under Article 8 of the Sustainable Finance Disclosure Regulation (EU 2019/2088) and seeks to track the performance of the Index. Sustainability characteristics and risks are considered as part of the Index selection process. The Index which is stated by the index provider to be screened against environmental, social or governance criteria and any methodology used by the index provider to assess sustainability characteristics and risks of the constituents of the index can be found on the website of the respective index provider.

Further disclosure information can also be found for each fund on the company website www.ubs.com/etf and updated policies on www.ubs.com/fml-policies.

Taxonomy

The Technical Screening Criteria ("TSC") are either not yet in final form (i.e. in respect of the first two Taxonomy environmental objectives of climate change mitigation and climate change adaptation) or have not yet been developed (i.e. for the other four Taxonomy environmental objectives) and these detailed criteria will require the availability of multiple, specific data points regarding each investment. As at the date hereof, there is insufficient reliable, timely and verifiable data available for the Manager to be able to assess investments using the TSC. While there are investments in the Sub-Funds that are in economic activities that contribute to an environmental objective and may be eligible to be assessed against the TSC, the Manager is not currently in a position to describe:

Appendix III - Sustainable Finance Disclosure Regulation (unaudited) (continued)

a) the extent to which the investments of the Sub-Funds are in economic activities that qualify as environmentally sustainable and are aligned with the Taxonomy Regulation;

b) the proportion, as a percentage of the Sub-Funds' portfolios, of investments in environmentally sustainable economic activities which are aligned with the Taxonomy Regulation; or

c) the proportion, as a percentage of the Sub-Funds' portfolios, of enabling and transitional activities (as described in the Taxonomy Regulation).

The Manager is keeping this situation under active review and where sufficient reliable, timely and verifiable data on the Sub-Funds' investments become available, the Manager will provide the descriptions referred to above, in which case this Prospectus or the Relevant Supplement will be updated. Until then, the Fund is not aligned with the Taxonomy and the investments underlying the Fund do not take into account the EU criteria for environmentally sustainable activities.

All other funds mentioned in the financial statements have been classified as article 6 subfunds. The investments underlying these financial products do not take into account the EU criteria for environmentally sustainable economic activities.
