General Information

UBS (Irl) ETF plc (the "Company") is an open-ended investment company with variable capital which was incorporated in Ireland on 14 December 2011 under registration number 507439 and is authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities ("UCITS"). The objective of the Company is the collective investment in transferable securities and/or other liquid financial assets of capital raised from the public, operating on the principle of risk spreading in accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision & Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (as amended) (the "Central Bank UCITS Regulations"). References to statutes, regulations and laws shall include any amendments thereto.

All capitalised terms not defined herein shall have the meaning attributed to them in the latest Prospectus for the Company.

The Company has been structured as an umbrella fund, with segregated liability between sub-funds ("sub-funds"), in that the Directors may from time to time, with the prior approval of the Central Bank, issue different series of Shares representing separate portfolios of assets, each comprising a fund (each a "Fund", collectively the "Funds"). The portfolio of assets maintained for each series of Shares and comprising a Fund will be invested in accordance with the investment objectives and policies applicable to such Fund as specified in the relevant supplement to the Prospectus and each relevant supplement shall include all such relevant information in relation to the additional Fund or Funds as the Directors may deem appropriate and the Central Bank requires, to be included. Each Fund will bear its own liabilities and, under Irish law, none of the Company, any of the service providers appointed to the Company, the Directors, any receiver, examiner or liquidator, or any other person will have access to the assets of a Fund in satisfaction of a liability of any other Fund.

Shares of any particular series may be divided into different Classes to accommodate different dividend policies, charges and/or fee arrangements (including different total expense ratios) and/or currencies. The Company may establish Classes that provide for foreign exchange hedging in accordance with the policies and requirements of the Central Bank from time to time. While it is anticipated that applications will be made for most of the Classes to be admitted to listing on one or more Listing Stock Exchange, the Company may also establish Classes of Unlisted Shares.

At 31 December 2020 there were twenty Funds of the Company, namely:

Fund	Currency	Initial dealing date

General Information (continued)

Replication Strategy

Our approach to passive equity investment is to target full replication where possible, depending on the characteristics of the benchmark index, the size of portfolio and the desired tracking accuracy. In some situations, the Investment Manager may utilise stratified sampling where the Investment Manager deems this to be more efficient.

In practice, the majority of our Equity ETFs target full replication (holding all or virtually all the underlying constituents at weights at or close to the index). As at 31 December 2020 the following Funds hold the majority of but not all of the index members and are therefore considered sampled:

MSCI USA Select Factor Mix UCITS ETF
MSCI ACWI Socially Responsible UCITS ETF
MSCI ACWI ESG Universal UCITS ETF

Directors' Report

for the financial year ended 31 December 2020

The Directors present their report together with the audited financial statements of UBS (Irl) ETF plc (the "Company") for the financial year ended 31 December 2020.

For the year ended 31 December 2020, the Company comprised twenty sub-funds (the "Funds"):

MSCI USA UCITS ETF
 MSCI USA Value UCITS ETF
 MSCI World UCITS ETF
 S&P 500 UCITS ETF
 Solactive Global Pure Gold Miners UCITS ETF
 MSCI Australia UCITS ETF

* The Fund launched on 30 April 2020.

** The Fund launched on 7 May 2020.

Results for the financial year and state of affairs

The results for the financial year are set out in the Statement of Comprehensive Income and the state of affairs of the Funds and the Company is set out in the Statement of Financial Position.

Directors

The following Directors held office on 31 December 2020 and throughout the financial year then ended, except where otherwise noted:

Clemens Reuter
 Ian Ashment
 Frank Muesel
 Andreas Haberzeth
 Robert Burke*
 Philip McEnroe*

* Independent Director.

The Company has delegated the day-to-day management and running of the Company to the Investment Manager in accordance with the policies approved by the Directors. Consequently, all Directors of the Company are non-executive.

Directors' Report (continued)

for the financial year ended 31 December 2020 (continued)

Directors' and Secretary's interests

None of the Directors, their families or the Secretary hold or held any beneficial interest in the shares of the Company during the financial year. Please see Note 6 "Related Parties" for further information.

Directors Andreas Haberzeth, Clemens Reuter and Frank Muesel are employees of the Distributor UBS Asset Management Switzerland AG. Director Ian Ashment is an employee of the Investment Manager.

Accordingly, Andreas Haberzeth, Clemens Reuter and Frank Muesel have a material interest in the Distributor Agreement. Ian Ashment has a material interest in the Investment Management Agreement.

No Director had at any time during the financial year or at the financial year end a material interest in any other contract of significance in relation to the business of the Company.

Adequate accounting records

The Directors ensure compliance with the Company's obligation under Section 281 of the Companies Act 2014 to keep adequate accounting records by appointing competent persons to be responsible for them. The accounting records are kept by State Street Fund Services (Ireland) Limited, at 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

Dividends

Details of Distributions paid during the financial year are included in Note 8 of the Financial Statements.

Review of Business

There was no change in the nature of the Company's business during the financial year. A detailed review of business is included in the Investment Manager's Report for each Fund.

Risk Management Objectives and Policies

Details of the Company's risk management objectives and policies are included in Note 3 of the Financial Statements. Risk in relation to Brexit and COVID 19 are disclosed in Note 16 of these financial statements.

Significant events during the financial year

Please see Note 16 for significant events during the financial year.

Significant events after the financial year end

Please see Note 17 for significant events after the financial year end.

Independent Auditor

The European Union (Statutory Audits) (Directive 2006/43/EC, as amended by Directive 2014/56/EU, and Regulation (EU) NO 537/2014) Regulations 2016 ("S.I. No. 312 of 2016") introduced mandatory statutory audit firm rotation for Public Interest Entities ('PIE'). The Company is considered a PIE under S.I. No. 312 of 2016. As a result, the Company's incumbent statutory independent auditors, PricewaterhouseCoopers, are retiring at the conclusion of the Company's next annual general meeting, during which the succeeding statutory independent auditors will be appointed in accordance with section 383 of the Companies Act.

Directors' Report (continued)

for the financial year ended 31 December 2020 (continued)

Corporate Governance Statement

General Principles

The Company is subject to the requirements of the Companies Act 2014, UCITS Regulations and the Central Bank UCITS Regulations, as applicable to the Company.

The European Communities (Directive 2006/46/EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010) (the "Regulations") requires the inclusion of a corporate governance statement in the Directors' Report.

Although there is no specific statutory corporate governance code applicable to Irish collective investment schemes whose shares are admitted to trading on an exchange, the Company is subject to corporate governance practices imposed by:

- (i) The Companies Act 2014 which is available for inspection at the registered office of the Company; and may also be obtained at <http://www.irishstatutebook.ie/>
- (ii) The Articles of Association of the Company which are available for inspection at the registered office of the Company and at the Companies Registration Office in Ireland;
- (iii) The Central Bank of Ireland (the "Central Bank") in the Regulations and other guidance applicable to the Company which can be obtained from the Central Bank's website at: <http://www.centralbank.ie/regulation/Pages/home.aspx> and are available for inspection at the registered office of the Company; and
- (iv) The Euronext through the stock Code of Listing Requirements and Procedures which can be obtained from the ISE's website at: <http://ise.ie/Products-Services/Sponsors-and-Advisors/Code-of-Listing-Requirements-and-Procedures-for-Investment-Funds.pdf>

The Board of Directors of the Company (the "Board") formally adopted the Irish Funds ("IF") Code with effect from 31 December 2012.

Internal Control and Risk Management Systems in Relation to Financial Reporting

The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has procedures in place to ensure that all relevant books of account are properly maintained and are readily available, including production of annual and half yearly financial statements. The Board has appointed State Street Fund Services (Ireland) Limited (the "Administrator") to maintain the books and records of the Company. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. From time to time, the Board of Directors examines and evaluates the Administrator's financial accounting and reporting routines. The annual financial statements of the Company are produced by the Administrator and reviewed by the Investment Manager. They are required to be approved by the Board and the annual and half yearly financial statements of the Company are required to be filed with the Central Bank.

During the year of these financial statements, the Board was responsible for the review and approval of the unaudited half yearly financial statements as set out in the Directors Responsibility Statement. The statutory financial statements are required to be audited by independent auditors who report annually to the Board on their findings. The Board monitors and evaluates the independent auditor's performance, qualifications and independence. As part of its review procedures, the Board receives presentations from relevant parties including consideration of International Financial Reporting Standards ("IFRS") as adopted by the EU and their impact on the annual financial statements, and presentations and reports on the audit process. The Board evaluates and discusses significant accounting and reporting issues as the need arises.

Directors' Report (continued)

for the financial year ended 31 December 2020 (continued)

Corporate Governance Statement (continued)

Dealings with Shareholders

The convening and conduct of shareholders' meetings are governed by the Articles of Association of the Company and the Companies Act 2014. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors were required to convene the first annual general meeting of the Company within eighteen months of incorporation and fifteen months of the date of the previous annual general meeting thereafter, provided that an annual general meeting is held within each calendar year.

At least twenty-one clear days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to shareholders and fourteen days' notice must be given in the case of any other general meeting, unless the auditors of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice. Two shareholders present either in person or by proxy constitutes a quorum at a general meeting. The share capital of the Company is divided into different classes of shares and the Companies Act 2014 and the Articles of Association provide that the quorum for a general meeting convened to consider any alteration to the rights attached to any class of shares, is two or more shareholders present in person or by proxy, holding or representing by proxy at least one third of the issued shares of the relevant class.

Every holder of participating shares or non-participating shares present, in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every holder of participating shares present, in person or by proxy, is entitled to one vote in respect of each share held by him, and every holder of non-participating shares is entitled to one vote in respect of all non-participating shares held by him. At any general meeting of the Company, a resolution put to the vote of the meeting is decided on a show of hands unless, before or upon the declaration of the result of the show of hands, a poll is demanded by the chairman of the general meeting, or by at least five members or shareholders present, in person or by proxy, having the right to vote at such meeting, or any holder or holders of participating shares present, in person or by proxy, representing at least one tenth of the shares in issue having the right to vote at such meeting.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a shareholders' meeting. Alternatively, a resolution in writing signed by all of the shareholders and holders of non-participating shares for the time being entitled to attend and vote on such resolution at a general meeting of the Company, will be valid and effective for all purposes as if the resolution had been passed at a general meeting of the Company duly convened and held. An ordinary resolution of the Company (or of the shareholders of a particular fund or class of shares) requires a simple majority of the votes cast by the shareholders voting, in person or by proxy, at the meeting at which the resolution is proposed. A special resolution of the Company (or of the shareholders of a particular fund or class of shares) requires a majority of not less than 75% of shareholders present, in person or by proxy, and voting in general meeting in order to pass a special resolution including a resolution to amend the Articles of Association.

Board Composition and Activities

In accordance with the Companies Act 2014 and the Articles of Association, unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two nor more than twelve. Currently the Board is comprised of non-executive Directors. Details of the current Directors are set out above, under the heading "Directors".

The business of the Company is managed by the Directors, who exercise all such powers of the Company as are noted by the Companies Act 2014 or by the Articles of Association of the Company required to be exercised by the Company in general meeting.

Directors' Report (continued)

for the financial year ended 31 December 2020 (continued)

Corporate Governance Statement (continued)

Board Composition and Activities (continued)

The Board is responsible for the Company's overall direction and strategy and to this end it reserves the decision making power on issues such as the determination of medium and long term goals, review of managerial performance, organisational structure and capital needs and commitments to achieve the Company's strategic goals. To achieve these responsibilities, the Board meets four times a year to review the operations of the Company, address matters of strategic importance and to receive reports from the Administrator, Depositary and the Investment Manager. However, a Director may, and the Company Secretary on the requisition of a Director will, at any time summon a meeting of the Directors and ad hoc meetings in addition to the four meetings are convened as required.

Questions arising at any meeting of the Directors are determined by the Chairman. In the case of an equality of votes, the Chairman of the meeting at which the show of hands takes place or at which the poll is demanded shall be entitled to a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

Diversity Statement

The Company believes in diversity and values the benefits that diversity can bring to its board of directors (the "Board"). The Board acknowledges the benefits of greater diversity, including diversity of gender, experience, thought, background and attributes at senior management levels and the importance diversity in ensuring good governance and sound decision-making.

Diversity acts as an essential safeguard against the emergence of group-think and harmful industry practices and as such the Company remains committed to ensuring that the Board brings a wide range of skills, knowledge, experience, background and perspectives. When assessing Board composition or identifying suitable candidates for appointment or re-election to the Board, the Company will consider candidates on merit against objective criteria, in the context of the overall balance of skills and backgrounds that the Board needs to maintain in order to remain effective, having due regard to the benefits of diversity, the needs of the Company and the best interests of its shareholders. Being aware of the risks associated with the lack of diversity, the Board considers that the promotion of a diverse Board makes prudent business sense and makes for better corporate governance. The Company seeks to maintain a diverse Board comprised of talented and dedicated directors with a diverse mix of expertise, qualifications and backgrounds.

Due to the size, nature and complexity of the Company's business, the Board does not consider it appropriate to apply targets for diversity or to establish a nomination committee.

Connected Persons

Regulation 43(1) of the UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person are conducted a) at arm's length; and b) in the best interest of the unit-holders of the UCITS".

As required under UCITS Regulation 81(4), the Directors are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected party; and all transactions with connected parties that were entered into during the year to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

Directors' Report (continued)

for the financial year ended 31 December 2020 (continued)

Corporate Governance Statement (continued)

Audit Committee

The Directors believe that there is no requirement to form an audit committee as the Board is formed of non-executive Directors with two independent Directors and the Company complies with the provisions of the Irish Funds Corporate Governance Code. The Directors have delegated the day to day investment management and administration of the Company to the Investment Manager and the Administrator respectively.

Directors' Fees

The Directors' fees amounting to USD 68,744 were paid out of the Flat Fee during the financial year ended 31 December 2020 (31 December 2019: Nil).

Direct brokerage

There was no direct brokerage services utilised for the financial year ended 31 December 2020 (2019: USD Nil).

Directors' Responsibility Statement

The Directors are responsible for preparing the annual report and financial statements in accordance with Irish law and IFRS.

Irish company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that financial year. Under that law the Directors have elected to prepare the financial statements in accordance with IFRS and applicable Irish law.

Under Irish law the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of Company's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the directors to ensure that the financial statements comply with the Companies Act 2014 and enable those financial statements to be audited.

The Company's financial statements will be published electronically on a web site maintained by the Investment Manager, namely www.ubs.com/etf. The Directors are responsible for ensuring that the financial statements provided to the Investment Manager for publication on the website are consistent with the manually signed financial statements. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Directors' Report (continued)

for the financial year ended 31 December 2020 (continued)

Directors Responsibility Statement (continued)

The Directors are responsible for safeguarding the assets of the Company. In this regard they have entrusted the assets of the Company to State Street Custodial Services (Ireland) Limited (the "Depositary") who has been appointed as Depositary and Trustee to the Company pursuant to the terms of a depositary agreement. The Directors are also responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities. The Directors comply with the Company's obligation to keep adequate accounting records by the delegation of the accounting function to the Administrator. The measures taken by the Directors to secure compliance with the Company's obligations to keep adequate accounting records are the use of appropriate systems and procedures and employment of competent persons. The accounting records are kept and maintained by the Administrator at 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

Directors compliance statement

The Directors are responsible for securing the Company's compliance with its "relevant obligations" under section 225 of the Companies Act 2014 (as defined in section 225(1) thereof, which includes compliance with that tax law and certain company law obligations.

As required under section 225(3), the Directors confirm that:

- a) a compliance policy statement has been drawn up setting out the Company's policies (that, in the Directors' opinion, are appropriate to the Company) with respect to compliance by the Company with its relevant obligations;
- b) appropriate arrangements or structures are in place that, in the Directors' opinion, are designed to secure material compliance with the Company's relevant obligations; and
- c) a review has been conducted during the financial year ending 31 December 2020 of the arrangements or structures referred to in paragraph (b) above.

The Directors confirm to the best of their knowledge, belief and understanding, having made the appropriate enquiries, that they have complied with the above requirements in preparing the financial statements.

Statement of relevant audit information

As at the date this Directors' Report was approved and signed (set out below), each Director is satisfied that:

- a) there is no relevant audit information of which the Company's statutory auditors are unaware; and
- b) s/he has taken all the steps that he or she ought to have taken as a director in order to make herself or himself aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information; and
- c) where "relevant audit information" means information needed by the Company's statutory auditors in connection with preparing their report.

For and on behalf of the Board

Depository's Report

for the financial year ended 31 December 2020

To the Shareholders of UBS (Irl) ETF plc (the "Company")

We have enquired into the conduct of the Company for the financial year ended 31 December 2020, in our capacity as Depository to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depository

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting year and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that year in accordance with the provisions of the Company's constitution (the 'Constitution') and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depository must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depository Opinion

The Depository conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Constitution and the UCITS Regulations and (ii) otherwise in accordance with the Constitution and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1); (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, as amended, ('the Central Bank UCITS Regulations') and
- (ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

Note: Not all Share Classes were in existence for the full financial year ended 31 December 2018; The following Share Class launched during the financial year ended 31 December 2018: MSCI USA UCITS ETF (hedged to JPY) A-acc, MSCI ACWI ESG Universal UCITS ETF Class (hedged to GBP) A-acc, MSCI ACWI ESG Universal UCITS ETF (hedged to JPY) A-acc and MSCI World Select Factor Mix UCITS ETF (USD) A-dis, and MSCI USA Select Factor Mix UCITS ETF (USD) A-acc. For these Share Classes, no performance data is presented in the above table.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming units.

^a Fund performance reflects percentage change in NAV's per share (cum dividend) over the financial period.

^b Total Net Return of the Index.

^c The tracking difference is attributable to Fund Expenses (see Note 2 to the financial statements) as well as non-reclaimable withholding taxes and to generation of securities lending income. The Funds' portfolio manager aims to achieve a level of tracking accuracy whereby the expected annual difference in returns, after expenses, between the performance of the shares of a Fund and that Fund's index will not exceed 1% under normal market conditions. However, exceptional circumstances may arise which cause a Fund's tracking accuracy to exceed 1%. None of the Funds had a tracking difference of more than 1% over a 12-month financial period.

^d Total Expense Ratio (TER), this ratio is calculated in accordance with the Asset Management Association Switzerland (AMAS) / Swiss Funds & Asset Management Association (SFAMA) "Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets. For terminated and newly launched share classes the total operating expense figure included in the TER has been annualised. The TER has been audited.

^e Tracking Error: annualised standard deviation. The Fund's portfolio manager aims to keep the tracking error, defined as the volatility of the tracking difference between the performance of the shares of a Fund and that Fund's index, below or equal to 1% under normal market conditions. However, exceptional circumstances may arise which cause a Fund's tracking error to exceed 1%. Tracking error calculation: The tracking error for the last 12 months is calculated as follows: $\text{=STANDARD DEVIATION (Monthly Excess calculated each month over a 12-month financial period)*SQUARE ROOT (12)}$.

Investment Objectives and Policies

MSCI USA UCITS ETF

The objective of the Fund is to seek to track the equity market performance of the U.S. market. The investment policy of the Fund is to seek to track the performance of the MSCI USA Index.

MSCI USA Value UCITS ETF

The objective of the Fund is to seek to track the equity market performance of U.S. equities, which are categorised as value stocks using eight historical and forward-looking fundamental data points. The data points are broken down into value investment style characteristics and growth investment style characteristics and, in constructing the index, MSCI use them to identify which stocks exhibit stronger value characteristics (ie, are priced at a low level relative to what is considered to be their fundamental value). The value investment style characteristics are (i) book value to price ratio, (ii) 12 month forward earnings to price ratio and (iii) dividend yield. The growth investment style characteristics are (i) long-term forward earnings per share (EPS) growth rate, (ii) short-term forward EPS growth rate, (iii) current Internal Growth Rate, (iv) long-term historical EPS growth trend and (v) long-term historical sales per share (SPS) growth trend. The investment policy of the Fund is to seek to track the performance of the MSCI USA Value Index.

MSCI World UCITS ETF

The objective of the Fund is to seek to track the equity market performance globally. The investment policy of the Fund is to seek to track the performance of the MSCI World Index.

S&P 500 UCITS ETF

The objective of the Fund is to seek to track the equity market performance of the U.S. market. The investment policy of the Fund is to seek to track the investment performance of the S&P 500 Index.

Solactive Global Pure Gold Miners UCITS ETF

The objective of the Fund is to seek to track the equity market performance of the largest listed companies generating at least 90% of their revenues in gold mining. The investment policy of the Fund is to seek to track the performance of the Solactive Global Pure Gold Miners Net Total Return Index.

MSCI Australia UCITS ETF

The objective of the Fund is to seek to track the performance of the large and mid cap segments of the Australian market. The investment policy of the Fund is to seek to track the performance of the MSCI Australia Index.

MSCI USA hedged to EUR UCITS ETF

The objective of the Fund is to seek to track the equity market performance of the U.S. market. The investment policy of the Fund is to seek to track the performance of the MSCI USA hedged to EUR Index.

MSCI USA hedged to CHF UCITS ETF

The objective of the Fund is to seek to track the equity market performance of the U.S. market. The investment policy of the Fund is to seek to track the performance of the MSCI USA hedged to CHF Index.

DJ Global Select Dividend UCITS ETF

The objective of the Fund is to seek to track the equity market performance of 100 leading dividend-paying companies worldwide. The investment policy of the Fund is to seek to track the performance of the Dow Jones Global Select Dividend™ Index.

MSCI United Kingdom IMI Socially Responsible UCITS ETF

The objective of the Fund is to seek to track the performance of UK companies with outstanding sustainability profiles. The investment policy of the Fund is to seek to track the performance of the MSCI UK IMI Extended SRI Low Carbon Select 5% Issuer Capped Index.

Factor MSCI USA Low Volatility UCITS ETF

The objective of the Fund is to seek to track the alternatively weighted equity market performance of the U.S. market. The investment policy of the Fund is to seek to track the performance of the MSCI USA Select Dynamic 50% Risk Weighted Index.

Investment Objectives and Policies (continued)

Factor MSCI USA Prime Value UCITS ETF

The objective of the Fund is to seek to track the alternatively weighted equity market performance of the U.S. market. The investment policy of the Fund is to seek to track the performance of the MSCI USA Prime Value Index.

Factor MSCI USA Quality UCITS ETF

The objective of the Fund is to seek to track the alternatively weighted equity market performance of the U.S. market. The investment policy of the Fund is to seek to track the performance of the MSCI USA Quality Index.

MSCI USA Select Factor Mix UCITS ETF

The objective of the Fund is to seek to track the alternatively weighted equity market performance of the U.S. market. The investment policy of the Fund is to seek to track the performance of the MSCI USA Select Factor Mix Index.

MSCI ACWI Socially Responsible UCITS ETF

The objective of the Fund is to seek to track the performance of the MSCI ACWI SRI Low Carbon Select 5% Issuer Capped Index. The investment policy of the Fund is to seek to track the performance of the MSCI ACWI SRI Low Carbon Select 5% Issuer Capped Index.

MSCI ACWI ESG Universal UCITS ETF

The objective of the Fund is to seek to track the performance of the MSCI ACWI ESG Universal 5% Issuer Capped Index. The investment policy of the Fund is to seek to track the performance of the MSCI ACWI ESG Universal 5% Issuer Capped Index.

Global Gender Equality UCITS ETF

The objective of the Fund is to track the performance of the Solactive Equileap Global Gender Equality 100 Leaders Net Total Return Index. The investment policy of the Fund is to seek to track the performance of the Solactive Equileap Global Gender Equality 100 Leaders Net Total Return Index.

S&P 500 ESG UCITS ETF

The objective of the Fund is to seek to track the equity market performance of the S&P 500 ESG Index (the "Index"). The investment policy of the Fund is to seek to track the performance of the S&P 500 ESG Index.

MSCI USA Socially Responsible UCITS ETF

The objective of the Fund is to seek to track the performance of US based companies which focus on Environmental, Social and Governance ("ESG") considerations and which would specifically exclude companies involved in nuclear power, tobacco, alcohol, gambling, military weapons, civilian firearms and genetically modified organisms. The investment policy of the Fund is to seek to track the performance of the MSCI USA SRI Low Carbon Select 5% Issuer Capped Index.

MSCI World Socially Responsible UCITS ETF

The objective of the Fund is to seek to track the performance of global companies which focus on Environmental, Social and Governance ("ESG") considerations and which would specifically exclude companies involved in nuclear power, tobacco, alcohol, gambling, military weapons, civilian firearms and genetically modified organisms. The investment policy of the Fund is to seek to track the performance of the MSCI World SRI Low Carbon Select 5% Issuer Capped Index.

Investment Manager's Report

for the financial year ended 31 December 2020

MSCI USA UCITS ETF Class (hedged to GBP) A-acc

For the twelve months ended 31 December 2020, The MSCI USA 100% hedged to GBP TR net Index was up 17.73% in GBP terms. The spread of covid-19 significantly affected global markets in the first months of the reporting period as countries went into lockdown to contain the pandemic. Market volatility and sometimes dislocation reached levels not seen since the depths of the global financial crisis over a decade ago. From record highs on 19 February, US equities dropped by more than 20% in just 16 trading days, the fastest entry into bear market territory ever. The response by central banks and governments has been unprecedented in terms of speed and scale. The Federal Reserve rolled out its entire global financial crisis playbook in just a couple of weeks, cutting rates to zero and restarting quantitative easing programs. US Equities recovered promptly from the market correction, the MSCI USA index recouping losses for the year on 8 June. The US economic recovery continued in the second half of the year, despite the emergence of new covid-19 hot spots. In November, the outcome of the US presidential election and positive news on the development of effective covid-19 vaccines triggered a strong rally in US equities. At the end of the year, a new stimulus package worth around USD 900bn was signed into law, which will inject money into the economy early in the new year.

The British Pound strengthened by around 3.19% against the US Dollar over the 12 month reporting period.

MSCI World UCITS ETF Class (USD) A-acc

For the twelve months ended 31 December 2020, the MSCI World TR net Index was up 15.90% in USD terms. Global equity markets were hit strongly at the end of February as investors reassessed the likelihood of the coronavirus outbreak having a major impact on economic activity worldwide. The speed of the spread of the covid-19 virus and the scale of steps taken to mitigate its impact on both population health and economic activity often left investors struggling to adjust. As a result, market volatility and sometimes dislocation reached levels not seen since the depths of the global financial crisis over a decade ago. In Q1, global equity markets had their worst quarter since the depth of the global financial crisis in October 2008, despite a strong rally as March ended. Markets continued to recover in the following months as a combination of lockdown measures being lifted in major economies, promising news on pharmaceutical developments to combat the coronavirus, and continued monetary and fiscal policy support which boosted investor confidence. In November, the breakthrough in the hunt for an effective covid-19 vaccine rekindled interest in riskier investment, this triggered the most "violent" style rotation from cheap Value to trendy Momentum, the scale of the switch even eclipsed the 2008 Financial Crisis or the dotcom bubble. The mood of optimism persisted until the end of year thanks to a successful conclusion to EU-UK trade talks and additional measures from policy makers to support growth, including the approval of a USD 900bn stimulus package in the US, along with a further expansion of monetary support from the ECB.

Solactive Global Pure Gold Miners UCITS ETF Class (USD) A-dis

For the twelve months ended 31 December 2020, the Solactive Global Pure Gold Miners Net TR index was up 24.43% in USD terms. Gold prices increased over the reporting period, in particular during the first half of the year as market volatility caused by the covid-19 pandemic prompted a greater move towards safe haven assets. Gold benefitted from the aggressive monetary stimulus of key central banks across the globe as well as from the weakening US dollar. Gold's strong price appreciation is a reminder of the yellow's metal unique performance characteristics in challenging times, even though it was volatile during the equity sell-off as investors sold liquid assets, including gold, to raise cash. In the end of the year, gold was under pressure in November as positive news on covid-19 vaccines brought forward investors' expectations of a return to normal social and economic activity, and reduced their demand for hedges. As a result, investors withdrew the equivalent of around 85 tonnes of gold from ETFs during the month, the largest monthly withdrawal since 2016. Yet gold recovered in December and was up about 7%, supported by falling US real rates and a weaker US dollar. Risk-off conditions in the first months of the reporting period weighed on share prices of mining companies but the further ascent in gold prices in the following months helped mining companies rebound quickly and end the period in positive territory.

MSCI Australia UCITS ETF Class (AUD) A-acc

For the twelve months ended 31 December 2020, the MSCI Australia TR Net Index was down 0.95% in AUD terms. Australian equities started the period on a positive trend, showing resilience against the backdrop of large bushfires and severe drought in Australia and a global context marked by the ongoing US-China trade tensions and declining global growth. Global equity markets were hit strongly at the end of February as investors reassessed the likelihood of the coronavirus outbreak having a major impact on economic activity worldwide. The speed of the spread of covid-19 and the scale of steps taken to mitigate its impact, on both population health and economic activity, often left investors and forecasters struggling to adjust. Overall, Australia has shown its relative resilience in coping with the pandemic. The government issued significant stimulus measures to mitigate the impact of lockdowns on employment and help companies survive. In the last quarter of the year, Australian equities rallied on the back of a sharp rise in commodity prices, a strengthening of the Australian dollar and positive news on the development of effective covid-19 vaccines which increased confidence in the sustainability of the current economic recovery.

The government issued significant stimulus measures to mitigate the impact of lockdowns on employment and help companies survive. In the last quarter of the year, Australian equities rallied on the back of a sharp rise in commodity prices, a strengthening of the Australian dollar and positive news on the development of effective covid-19 vaccines which increased confidence in the sustainability of the current economic recovery.

The Swiss Franc weakened by around 1.91% against the Australian Dollar over the 12 month reporting period.

MSCI Australia UCITS ETF Class (hedged to EUR) A-acc

For the twelve months ended 31 December 2020, the MSCI Australia hedged to EUR TR Net Index was up 0.28% in EUR terms. Australian equities started the period on a positive trend, showing resilience against the backdrop of large bushfires and severe drought in Australia and a global context marked by the ongoing US-China trade tensions and declining global growth. Global equity markets were hit strongly at the end of February as investors reassessed the likelihood of the coronavirus outbreak having a major impact on economic activity worldwide. The speed of the spread of covid-19 and the scale of steps taken to mitigate its impact, on both population health and economic activity, often left investors and forecasters struggling to adjust. Overall, Australia has shown its relative resilience in coping with the pandemic. The government issued significant stimulus measures to mitigate the impact of lockdowns on employment and help companies survive. In the last quarter of the year, Australian equities rallied on the back of a sharp rise in commodity prices, a strengthening of the Australian dollar and positive news on the development of effective covid-19 vaccines which increased confidence in the sustainability of the current economic recovery.

The Euro weakened by around 0.70% against the Australian Dollar over the 12 month reporting period.

MSCI USA hedged to EUR UCITS ETF Class (EUR) A-acc

For the twelve months ended 31 December 2020, the MSCI USA 100% hedged to EUR TR net index was up 18.00% in EUR terms. The spread of covid-19 significantly affected global markets in the first months of the reporting period as countries went into lockdown to contain the pandemic. Market volatility and sometimes dislocation reached levels not seen since the depths of the global financial crisis over a decade ago. From record highs on 19 February, US equities dropped by more than 20% in just 16 trading days, the fastest entry into bear market territory ever. The response by central banks and governments has been unprecedented in terms of speed and scale. The Federal Reserve rolled out its entire global financial crisis playbook in just a couple of weeks, cutting rates to zero and restarting quantitative easing programs. US Equities recovered promptly from the market correction, the MSCI USA index recouping losses for the year on 8 June. The US economic recovery continued in the second half of the year, despite the emergence of new covid-19 hot spots. In November, the outcome of the US presidential election and positive news on the development of effective covid-19 vaccines triggered a strong rally in US equities. At the end of the year, a new stimulus package worth around USD 900bn was signed into law, which will inject money into the economy early in the new year.

The Euro strengthened by around 9.00% against the US Dollar over the 12 month reporting period.

The Swiss Franc strengthened by around 8.72% against the US Dollar over the 12 month reporting period.

DJ Global Select Dividend UCITS ETF Class (USD) A-dis

For the twelve months ended 31 December 2020, the DJ Global Select Dividend TR Net Index was down 3.86% in USD terms. Global equity markets were hit strongly at the end of February as investors reassessed the likelihood of the coronavirus outbreak having a major impact on economic activity worldwide. The speed of the spread of the covid-19 virus and the scale of steps taken to mitigate its impact on both population health and economic activity often left investors struggling to adjust. As a result, market volatility and sometimes dislocation reached levels not seen since the depths of the global financial crisis over a decade ago. In Q1, global equity markets had their worst quarter since the depth of the global financial crisis in October 2008, despite a strong rally as March ended. Markets continued to recover in the following months as a combination of lockdown measures being lifted in major economies, promising news on pharmaceutical developments to combat the coronavirus, and continued monetary and fiscal policy support which boosted investor confidence. In November, the breakthrough in the hunt for an effective covid-19 vaccine rekindled interest in riskier investment, this triggered the most "violent" style rotation from cheap Value to trendy Momentum, the scale of the switch even eclipsed the 2008 Financial Crisis or the dotcom bubble. The mood of optimism persisted until the end of year thanks to a successful conclusion to EU-UK trade talks and additional measures from policy makers to support growth, including the approval of a USD 900bn stimulus package in the US, along with a further expansion of monetary support from the ECB.

MSCI United Kingdom IMI Socially Responsible UCITS ETF Class (GBP) A-dis

For the twelve months ended 31 December 2020, the benchmark was down 4.86% in GBP terms. The benchmark changed in December 2020 from MSCI UK IMI Extended SRI 5% Issuer Capped Total Return Net Index to MSCI UK IMI Extended SRI Low Carbon Select 5% Issuer Capped Total Return Net Index. The covid-19 outbreak dominated headlines over the year not only because of its impact on the economy but also due to its social implications, with restrictions on travel, closures of schools and shops and the strain on healthcare systems. In February and March, global equity markets fell sharply as investors reassessed the likelihood of the coronavirus outbreak having a major impact on economic activity worldwide. The speed of the spread of covid-19 and the scale of steps taken to mitigate its impact, on both population health and economic activity, often left investors and forecasters struggling to adjust. As a result, market volatility and sometimes dislocation reached levels not seen since the depths of the global financial crisis over a decade ago. Equity markets recovered in the second quarter as a combination of lockdown measures being lifted in major economies, promising news on pharmaceutical developments to combat covid-19, and continued monetary and fiscal policy support. The UK equity market recovered along with global stocks, but lagged, held back by its high weighting towards the sectors hit hardest by the pandemic. In Q3, UK economic data came in softer than expected. Retail sales slowed, the number of jobless claims edged up and borrowing shrank. Inflation stayed high, defying hopes of a fall, and core inflation even accelerated. Despite higher inflation, the focus of debate has been on the scope for further quantitative easing, with the Bank of England divided. In the end of the year, a major threat to the UK economy was removed, with the long-awaited agreement of a UK-EU trade deal signed in December. The conclusion of the Trade and Cooperation Agreement (TCA) with the EU averted the threat of significant disruption that could have resulted from a no-deal Brexit.

Factor MSCI USA Quality UCITS ETF Class (hedged to GBP) A-dis

For the twelve months ended 31 December 2020, the MSCI USA Quality 100% hedged to GBP TR net index was up 19.67% in GBP terms. The spread of covid-19 significantly affected global markets in the first months of the reporting period as countries went into lockdown to contain the pandemic. Market volatility and sometimes dislocation reached levels not seen since the depths of the global financial crisis over a decade ago. From record highs on 19 February, US equities dropped by more than 20% in just 16 trading days, the fastest entry into bear market territory ever. The response by central banks and governments has been unprecedented in terms of speed and scale. The Federal Reserve rolled out its entire global financial crisis playbook in just a couple of weeks, cutting rates to zero and restarting quantitative easing programs. US Equities recovered promptly from the market correction, the MSCI USA index recouping losses for the year on 8 June. The US economic recovery continued in the second half of the year, despite the emergence of new covid-19 hot spots. In November, the outcome of the US presidential election and positive news on the development of effective covid-19 vaccines triggered a strong rally in US equities. At the end of the year, a new stimulus package worth around USD 900bn was signed into law, which will inject money into the economy early in the new year.

The British Pound strengthened by around 3.19% against the US Dollar over the 12 month reporting period.

Factor MSCI USA Quality UCITS ETF Class (USD) A-dis

For the twelve months ended 31 December 2020, the MSCI USA Quality TR net index was up 22.33% in USD terms. The spread of covid-19 significantly affected global markets in the first months of the reporting period as countries went into lockdown to contain the pandemic. Market volatility and sometimes dislocation reached levels not seen since the depths of the global financial crisis over a decade ago. MSCI ACWI Socially Responsible UCITS ETF Class (hedged to CHF) A-acc

For the twelve months ended 31 December 2020, the benchmark was up 14.66% in CHF terms. The benchmark changed in December from MSCI ACWI SRI Low Carbon Select 5% Issuer Capped with Developed Markets 100% hedged to CHF Index to MSCI ACWI SRI Low Carbon Select 5% Issuer Capped with Developed Markets 100% hedged to CHF Index. Global equity markets were hit strongly at the end of February as investors reassessed the likelihood of the coronavirus outbreak having a major impact on economic activity worldwide. The speed of the spread of the covid-19 virus and the scale of steps taken to mitigate its impact on both population health and economic activity often left investors struggling to adjust. As a result, market volatility and sometimes dislocation reached levels not seen since the depths of the global financial crisis over a decade ago. In Q1, global equity markets had their worst quarter since the depth of the global financial crisis in October 2008, despite a strong rally as March ended. Markets continued to recover in the following months as a combination of lockdown measures being lifted in major economies, promising news on pharmaceutical developments to combat the coronavirus, and continued monetary and fiscal policy support which boosted investor confidence. In November, the breakthrough in the hunt for an effective covid-19 vaccine rekindled interest in riskier investment, this triggered the most "violent" style rotation from cheap Value to trendy Momentum, the scale of the switch even eclipsed the 2008 Financial Crisis or the dotcom bubble. Emerging market equities returned their strongest quarterly return in over a decade, weak US dollar partially contributed to the gains. Furthermore, a rally in commodity prices also helped EM exporters.

As a result, market volatility and sometimes dislocation reached levels not seen since the depths of the global financial crisis over a decade ago. In Q1, global equity markets had their worst quarter since the depth of the global financial crisis in October 2008, despite a strong rally as March ended. Markets continued to recover in the following months as a combination of lockdown measures being lifted in major economies, promising news on pharmaceutical developments to combat the coronavirus, and continued monetary and fiscal policy support which boosted investor confidence. In November, the breakthrough in the hunt for an effective covid-19 vaccine rekindled interest in riskier investment, this triggered the most "violent" style rotation from cheap Value to trendy Momentum, the scale of the switch even eclipsed the 2008 Financial Crisis or the dotcom bubble. The mood of optimism persisted until the end of year thanks to a successful conclusion to EU-UK trade talks and additional measures from policy makers to support growth, including the approval of a USD 900bn stimulus package in the US, along with a further expansion of monetary support from the ECB.

Global Gender Equality UCITS ETF Class (hedged to CHF) A-dis

For the twelve months ended 31 December 2020, the Solactive Equileap Global Gender Equality 100 Leaders CHF Hedged Net TR Index was up 6.18% in CHF terms. Global equity markets were hit strongly at the end of February as investors reassessed the likelihood of the coronavirus outbreak having a major impact on economic activity worldwide. The speed of the spread of the covid-19 virus and the scale of steps taken to mitigate its impact on both population health and economic activity often left investors struggling to adjust. As a result, market volatility and sometimes dislocation reached levels not seen since the depths of the global financial crisis over a decade ago. S&P 500 ESG UCITS ETF Class (hedged to CHF) A-acc

For the twelve months ended 31 December 2020, the S&P 500 ESG hedged to CHF TR net Index was up 16.39% in CHF terms. The spread of covid-19 significantly affected global markets in the first months of the reporting period as countries went into lockdown to contain the pandemic. Market volatility and sometimes dislocation reached levels not seen since the depths of the global financial crisis over a decade ago. From record highs on 19 February, the S&P 500 dropped by 20% in just 16 trading days, the fastest entry into bear market territory ever. The response by central banks and governments has been unprecedented in terms of speed and scale. The Federal Reserve rolled out its entire global financial crisis playbook in just a couple of weeks, cutting rates to zero and restarting quantitative easing programs. US Equities recovered promptly from the market correction, the S&P 500 recouping losses for the year on 8 June. The US economic recovery continued in the second half of the year, despite the emergence of new covid-19 hot spots. In November, the outcome of the US presidential election and positive news on the development of effective covid-19 vaccines triggered a strong rally in US equities. At the end of the year, a new stimulus package worth around USD 900bn was signed into law, which will inject money into the economy early in the new year.

The Swiss Franc strengthened by around 8.72% against the US Dollar over the 12 month reporting period.

S&P 500 ESG UCITS ETF Class (hedged to EUR) A-acc

MSCI USA Socially Responsible UCITS ETF Class (hedged to CHF) A-acc

Since inception on 7 May 2020, the benchmark was up 33.36% in CHF terms. The benchmark changed in December 2020 from MSCI USA SRI 5% Issuer Capped 100% hedged to CHF TR net index to MSCI USA SRI Low Carbon Select 5% Issuer Capped 100% hedged to CHF TR net index. Over the reporting period, US equities continued to recover from the significant downturn caused by the Covid-19 outbreak in the first quarter of the year. The recovery was fuelled by a combination of lockdown measures being lifted in major economies, promising news on pharmaceutical developments to combat the coronavirus, and continued monetary and fiscal policy support which boosted investor confidence. US GDP growth was supported mainly by consumer spending. Job creations were far stronger than normal - businesses have been surprised by the strength of demand, which has encouraged them to rehire more workers. The housing market has been very strong, helped by record-low mortgage rates. The imbalance between supply and demand led to upward pressure on prices. In November, the outcome of the US presidential election and positive news on the development of effective covid-19 vaccines triggered a strong rally in US equities. At the end of the year, a new stimulus package worth around USD 900bn was signed into law, which will inject money into the economy early in the new year.

The Swiss Franc strengthened by around 9.34% against the US Dollar over the reporting period.

Independent auditors' report to the members of UBS (Irl) ETF plc ***Report on the audit of the financial statements***

Opinion

In our opinion, UBS (Irl) ETF plc's financial statements:

- give a true and fair view of the Company's and sub-funds' assets, liabilities and financial position as at 31 December 2020 and of their results and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and financial statements for the financial year ended 31 December 2020, which comprise:

- the Statement of Financial Position as at 31 December 2020;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Cash Flows for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Schedules of Investments for each of the sub-funds as at 31 December 2020; and
- the notes to the financial statements for the Company and for each of its sub-funds, which include a description of the significant accounting policies.

Our opinion is consistent with our reporting to the Board of Directors.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by IAASA's Ethical Standard were not provided to the Company.

Other than those disclosed in note 4, we have provided no non-audit services to the Company in the period from 1 January 2020 to 31 December 2020.

Our audit approach

Overview

Materiality

- Overall materiality: 50 basis points of Net Assets Value ("NAV") at 31 December 2020 for each of the Company's sub-funds.

Audit scope

- The Company is an open-ended investment company with variable capital and engages
-

UBS Fund Management (Luxembourg) S.A. (the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the Company. We tailored the scope of our audit taking into account the types of investments within the sub-funds, the involvement of the third parties referred to overleaf the accounting processes and controls, and the industry in which the Company operates. We look at each of the sub-funds at an individual level.

Key audit matters

- Existence of financial assets and liabilities at fair value through profit or loss.
- Valuation of financial assets and liabilities at fair value through profit or loss.

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
<i>Existence of financial assets and liabilities at fair value through profit or loss.</i> See accounting policy 1(d) of the financial statements of the Company for further details. The financial assets at fair value through profit or loss included in the Statement of Financial Position of each sub-fund are held in the sub-fund's name at 31 December 2020. We focused on this area because it represents the principle element in the financial statements.	We obtained independent confirmation from the Depositary and counterparties or performed alternative procedures of the investment portfolio held at 31 December 2020, agreeing the amounts held to the accounting records.
<i>Valuation of financial assets and liabilities at fair value through profit or loss</i> See accounting policy 1(d) of the financial statements of the Company for further details. The financial assets and liabilities at fair value through profit or loss included in the Statement of Financial Position of each sub-fund at 31 December 2020 are valued at fair value in line with IFRS as adopted by the European Union. We focused on this area because it represents the	We tested the valuation of the investment portfolios by independently agreeing the valuation of investments to third party vendor sources or performed alternative procedures.

Key audit matter**How our audit addressed the key audit matter**

principle element in the financial statements.

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

As at 31 December 2020 there are 20 sub-funds operating. The Company's Statement of Financial Position, Statement of Comprehensive Income, Statement of Cash Flows and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares are an aggregation of the positions and results of the sub-funds.

The directors control the affairs of the Company and are responsible for the overall investment policy which is determined by them. The Company engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the Company. The Manager has delegated certain responsibilities to UBS Asset Management (UK) Ltd (the 'Investment Manager') and to State Street Fund Services (Ireland) Limited (the 'Administrator'). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The Company has appointed State Street Custodial Services (Ireland) Limited (the "Depository") to act as Depository of the Company's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a sub-fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Company's sub-funds as follows:

Overall materiality and how we determined it

50 basis points of Net Assets Value ("NAV") at 31 December 2020 for each of the Company's sub-funds. (2019: 50 basis points of NAV for each of the Company's sub-funds and 50 basis points of Average NAV was used for the Solactive Global Oil Equities UCITS ETF, MSCI EMU Cyclical UCITS ETF, MSCI EMU Defensive UCITS ETF, Factor MSCI USA Total Shareholder Yield UCITS ETF and MSCI World Select Factor Mix UCITS ETF funds which ceased during the year).

Rationale for benchmark applied

We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a sub-fund level, taking account of the capital and income returns.

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above 5 basis points of each sub-fund's NAV, for NAV per share impacting differences (2019: 5 basis points of each sub-fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the Company's and sub-funds' ability to continue to adopt the going concern basis of accounting included:

The Company is an open-ended investment company. The Company has been structured as an umbrella fund with segregated liability between the sub-funds. The Directors assessment of going concern included assessment of 1) Liquidity Risk, 2) Key Risk Indicators and 3) Management's Plan.

We have obtained an understanding of the liquidity and capital risks of the Company and sub-funds and the measures to mitigate and manage these risks (as disclosed in note 3 Financial Risks - Liquidity risk and Capital risk) over the going

concern period (12 months from the date of approval of the financial statements) by considering management's assessment of going concern (outlined in Note 1 c) which has been approved by the directors.

We considered the appropriateness of the going concern assessment of the Company and sub-funds by:

Reviewing the liquidity profile of the assets and liabilities, for any significant mismatches, as detailed in note 3 Financial Risks - Liquidity Risk;

- Agreeing the liquidity terms surrounding the Company's ability to manage liquidity risk through redemption limits and redemptions in-kind, if necessary, as per note 3 Financial Risks - Liquidity risk, to the legal documents;
- Performing subsequent event testing around capital activity to determine whether material redemption requests have been presented to the sub-funds; and
- Discussing management's plans to assess if there is a plan to terminate any of the sub-funds.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and sub-funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and sub-funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and financial statements for the financial year ended 31 December 2020, other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

Directors' Report

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 December 2020 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Corporate governance statement

- In our opinion, based on the work undertaken in the course of the audit of the financial statements, the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement, is consistent with the financial statements and has been prepared in accordance with section 1373(2)(c) of the Companies Act 2014.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit of the financial statements, we have not identified material misstatements in the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement.
- In our opinion, based on the work undertaken during the course of the audit of the financial statements, the information required by section 1373(2)(a),(b),(e) and (f) of the Companies Act 2014 and regulation 6 of the European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017 is contained in the Corporate Governance Statement.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Directors' Responsibility Statement set out on pages 13 and 14, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and sub-funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Appointment

We were appointed by the directors on 14 December 2011 to audit the financial statements for the year ended 31 December 2012 and subsequent financial periods. The period of total uninterrupted engagement is 9 years, covering the years ended 31 December 2012 to 31 December 2020.

Notes to the Financial Statements

for the financial year ended 31 December 2020

Note 1 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. The policies have been consistently applied in the financial year presented, unless otherwise stated.

(a) Basis of presentation

The financial statements are presented in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union, Irish Statute comprising the Companies Act 2014, and the UCITS Regulations. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

The comparative figures are for the financial year ended 31 December 2019.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgement in the process of applying the Fund's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 1(c).

New standards, amendments and interpretations issued and effective for the financial year beginning 1 January 2020

There are no new standards, amendments or interpretations issued and effective for the financial year beginning 1 January 2020 that have a significant impact on the Company's financial position, performance or disclosures in its financial statements.

New standards, amendments and interpretations issued but not effective for the financial year beginning 1 January 2020 and not early adopted

IFRS 17 "Insurance Contracts" was issued in May 2017 and will become effective for accounting periods beginning on or after 1 January 2023. It applies to: insurance contracts, including reinsurance contracts, issued by an entity; reinsurance contracts held by an entity; and investment contracts with discretionary participation features issued by an entity that issues insurance contracts. An insurance contract is defined as 'a contract under which one party (the issuer) accepts significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder'. The new standard is not expected to have a significant impact on the Company's financial position, performance or disclosures in its financial statements.

There are no other standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a significant impact on the Company.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 1 Summary of significant accounting policies (continued)

(b) Foreign currency translation

Functional and presentation currency

In accordance with IAS 21, items included in each Fund's financial statements are measured using the currency of the primary economic environment in which it operates and in which the majority of its capital activity is conducted (functional currency). The functional currencies of the individual Funds are set out in the General Information. Each individual Fund has adopted its functional currency as its presentation currency. The combined financial statements are presented in U.S. Dollar ("USD"), being the presentational currency of the Company as the Board of Directors considers the U.S. Dollar to be the currency that most faithfully represents the currency in which the majority of the Funds of the Company measure their performance and report their results, as well as the currency in which they receive subscriptions from their investors.

Combined Financial Statements

- (i) For the purpose of producing the Combined Statement of Financial Position, assets and liabilities, including net assets attributable to holders of Redeemable Participating Shares of each Fund whose presentation currency is not USD are translated from its presentation currency to USD at the closing rate at the Statement of Financial Position date; and
- (ii) For the purpose of producing the Combined Statement of Comprehensive Income and the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders, the average exchange rates for the respective financial year are used to convert into USD, the respective statements of the Funds with a presentation currency other than USD. The currency gain or loss on retranslation of opening net assets, and the average rate difference arising on the translation of the Combined Statement of Comprehensive Income and the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders, is included in the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders. This translation adjustment does not impact the net asset value per share of any of the individual Funds.

Transactions and balances

Foreign currency transactions are translated into the functional currency of each Fund using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions together with gains and losses from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

Translation differences on non-monetary items, such as equities, held at fair value through profit or loss are reported as part of the net gains/losses on financial instruments at fair value through profit or loss.

(c) Significant accounting estimates and judgements

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

Going concern

The Company's management has made an assessment of the Company's ability to continue as a going concern and is satisfied that the Company has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Please refer to the assessment of liquidity risk in note 3 and also the significant events after the financial year end in note 17 to support this assessment to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 1 Summary of significant accounting policies (continued)

(c) Significant accounting estimates and judgements (continued)

Fair value of financial instruments

When the fair value of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include considerations of liquidity and model inputs such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. The models are calibrated regularly and tested for validity using prices from any observable current market transactions in the same instrument (without modification or repackaging) or based on any available observable market data. At 31 December 2020 and 31 December 2019 no positions were fair valued using the mathematical model.

(d) Financial instruments

(i) Classification

The Company classifies its investments, including derivatives, based on both the Company's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets.

The portfolio of financial assets and financial liabilities is managed and performance is evaluated on a fair value basis. The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. Consequently, all investments, including derivatives and short-term investments are measured at Fair value through profit or loss.

The Company's policy requires the Investment Manager and the Board of Directors to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

(ii) Recognition, derecognition and measurement

Regular purchases and sales of investments are recognised on the trade date - the date on which the Fund contracts to purchase or sell the investment. Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the Statement of Comprehensive Income. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

(iii) Subsequent measurement

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income within net gain on financial assets at fair value through profit or loss in the year in which they arise. Dividend income from financial assets at fair value through profit or loss is recognised in the Statement of Comprehensive Income within dividend income when the Fund's right to receive payments is established.

(iv) Fair value

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the Statement of Financial Position date, as detailed in the Company's Prospectus and Fund Supplements. The quoted market price used for financial assets and liabilities held by the Fund is based on a price within the bid ask spread that is most representative of fair value.

See section c) of this note for valuation of financial assets and financial liabilities not traded on an active market.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 1 Summary of significant accounting policies (continued)

(d) Financial instruments (continued)

(v) Investment Funds

Investments in open-ended investment funds are valued at fair value at the latest available net asset value for the shares or units obtained from the relevant administrator. The changes in the daily net asset value of these units is recognised as net gain/(loss) on investment activities at fair value through profit or loss. For each relevant Fund, the fair value of Investment Funds, if any are included in the financial assets and liabilities at fair value through profit or loss, as appropriate, on the Statement of Financial Position and are shown in the Schedule of Investments of each relevant Fund.

(vi) Derivative instruments

Forward and Spot Foreign Currency Exchange Contracts

The fair value of open forward foreign currency exchange contracts and open spot foreign currency exchange contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. For each relevant Fund, gains or losses on open spot foreign currency exchange contracts are included in cash equivalents in the Statement of Financial Position and gains or losses on open foreign currency exchange contracts, if any are included in the financial assets or liabilities at fair value through profit or loss, as appropriate, on the Statement of Financial Position and are shown in the Schedule of Investments of each relevant Fund.

Futures contracts

The Fund may purchase and sell futures contracts. A futures contract is a contract that obligates the holder to buy or sell an asset at a predetermined delivery price at a specified time in the future. Some futures contracts are net (cash) settled. Upon entering into a futures contract, the Fund is required to deposit cash or other liquid assets with the futures clearing broker in accordance with the initial margin requirements of the broker or exchange. Futures contracts are generally valued at the settlement price established at the close of business each day by the board of trade or exchange on which they are traded. For each relevant Fund, gains and losses on futures contracts, if any are included in the financial assets and liabilities at fair value through profit or loss, as appropriate, on the Statement of Financial Position and are shown in the Schedule of Investments of each relevant Fund.

(e) Cash and cash equivalents/Bank overdraft

All cash and cash equivalents are comprised of cash balances held within State Street Bank and Trust Company's ("State Street") custodian network. Certain cash balances may be held by sub-custodians, as approved and appointed by State Street, in markets where State Street does not operate as a depository. Cash and cash equivalents are carried at amortised cost which approximates its fair value. Bank overdrafts are presented separately on the Statement of Financial Position.

Investor Money Regulations ("IMR")

In March 2015, the Central Bank introduced Investor Money Regulations ("IMR").

As a result of the application of IMR, cash accounts held with a third party banking entity for collection of subscriptions, payment of redemptions and dividends for the Funds were re-designated, and are now deemed assets of the relevant Funds. Such accounts are also held in the name of the relevant Funds. In the circumstance of a pending issue of shares or payment of subscription proceeds or distributions, any relevant investor is an unsecured creditor of the relevant Fund in respect of amounts paid by or due to it. As at 31 December 2020 and 31 December 2019 none of the Funds are highly leveraged.

As at 31 December 2020, seven Funds had material balances in such accounts held by the Depositary, MSCI USA UCITS ETF, MSCI USA Value UCITS ETF, MSCI Australia UCITS ETF, Factor MSCI USA Low Volatility UCITS ETF, Factor MSCI USA Prime Value UCITS ETF, Factor MSCI USA Quality UCITS ETF and MSCI USA Select Factor ETF. These material IMR cash balances have been accounted for and are recognised within the relevant Fund's Statement of Financial Position and Statement of Cash Flows. A related liability to repay the shareholder is recognised within Payable for fund shares redeemed on the relevant Fund's Statement of Financial Position, therefore these adjustments did not impact the Net Asset Value of the relevant Funds. As at 31 December 2019 no Funds had material balances which required recognition.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 1 Summary of significant accounting policies (continued)

(f) Redeemable participating shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities, in accordance with IAS 32.

For the purpose of calculating the net assets attributable to redeemable participating shareholders in accordance with a Fund's redemption requirements, each Fund's assets and liabilities are valued on the basis of the relevant index's method of valuation (the "dealing prices"). This index method of valuation of net asset value is consistent with the IFRS valuation requirements as set out above.

The Funds issue shares at the net asset value of the existing shares on the basis of dealing prices. In accordance with the Prospectus the holders of participating shares can redeem them for cash equal to a proportionate share of the relevant Fund's net asset value (calculated in accordance with redemption requirements) on the relevant dealing day.

The Fund's net asset value per share is calculated by dividing the net assets attributable to redeemable participating shareholders (calculated in accordance with redemption requirements) by the number of shares in issue.

(g) Unrealised and realised gain/(loss) on investments

In respect of each instrument type classified as financial instruments at fair value through profit or loss, the unrealised gains/(losses) and realised gains/(losses) are included in net gain/(loss) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income for the Fund.

Realised gains and losses on disposals of financial instruments classified as 'at fair value through profit or loss' are calculated using the average cost method. They represent the difference between an instrument's initial carrying amount and disposal amount, or cash payments or receipts made on settlement of derivative contracts (excluding payments or receipts on collateral margin accounts for such instruments).

(h) Dividend income and interest expense

Dividend income is credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Dividend income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Interest expense on cash and bank overdrafts are recognised in the Statement of Comprehensive Income.

(i) Expenses

Expenses are accounted for on an accrual basis. Expenses are charged to the Statement of Comprehensive Income except for relevant expenses incurred on the acquisition of an investment, which are included within the cost of that investment. Expenses arising on the disposal of investments are deducted from the disposal proceeds.

(j) Distributions

Distributions with an ex date during the financial year under review are included as a finance cost in the Statement of Comprehensive Income. The reinvestment of the deemed distribution if applicable, being the portion of the total distribution reinvested, are included as a share transaction in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 1 Summary of significant accounting policies (continued)

(k) Taxation

Withholding tax on investment income is included in the Statement of Comprehensive Income.

(l) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Investment Manager.

(m) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs on the purchase and sale of forwards are included in the purchase and sale price of the investment. They cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed.

Transaction costs on purchases and sales of equities are included in net gains/(losses) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income for each Fund. These costs are separately identifiable transaction costs and the total costs incurred by each Fund, inclusive of stamp duty, during the financial year are disclosed in Note 4. Custody transaction costs form part of the Total Expense Ratio ("TER") of the Fund but are not distinguishable from the other expenses captured within the TER.

(n) Securities lending

The Company has appointed State Street Bank International GmbH, Frankfurt Branch as securities lending agent. Certain Funds may lend securities through the securities lending agent to broker, dealers and other financial organisations to earn additional income. Income earned from securities lending activities is accounted for on an accruals basis. See Note 9 for details.

(o) Significant non cash transactions

Many investing and financing activities do not have a direct impact on current cash flows although they do affect the capital and asset structure of an entity. The exclusion of non cash transactions from the statement of cash flows is consistent with the objective of a statement of cash flows as these items do not involve cash flows in the current year. Examples of non cash transactions are: (a) the acquisition of assets either by assuming directly related liabilities or by means of a finance lease; (b) the acquisition of an entity by means of an equity issue; (c) the conversion of debt to equity. In the case of the Company, there were no non-cash transactions during the financial years ended 31 December 2020 and 31 December 2019.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 1 Summary of significant accounting policies (continued)

(p) Income Equalisation

Income equalisation arrangements are applied in the case of subscriptions to and redemptions from certain Funds. The Net Asset Value per redeemable participating share as calculated on each Dealing Day has an income element and a capital element. In relation to any subscription or redemption, the monies received or paid are allocated proportionately to or from income and capital in a Fund. These arrangements are intended to ensure that the income per redeemable participating share, which is distributed in respect of any distribution year for which a distribution is made, is not affected by changes in the number of redeemable participating shares in issue during that year and to ensure dividend distributions are paid to shareholders at the same rate. The calculation of equalisation is based on net income. Income equalisation is included in the Share transaction section of the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, for all Funds.

Note 2 Taxation

Investors should be aware that tax regulations and their application or interpretation by the relevant taxation authorities can change periodically. The following should not be taken as constituting legal or tax advice. Investors should obtain information and, if necessary, should consult their professional advisers on the possible tax or other consequences of buying, holding, transferring or selling the Shares under the laws of their countries of origin citizenship, residence or domicile.

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each year beginning with the acquisition of such shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- a) A Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company; or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations and;
- b) Certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations and;
- c) Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners (such as Clearstream) will not constitute a chargeable event. It is the current intention of the Directors that all the shares in the Company will be held in Crest or another recognised clearing system.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to taxes imposed by the country from which the investment income/gains are received and such withholding taxes may not be recoverable by the Company or its Shareholders

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 2 Taxation (continued)

The Common Reporting Standard ("CRS") has been developed by the OECD to address the issue of offshore tax evasion on a global basis. Prospective investors will be required to provide to the Fund information about themselves and their tax status prior to investment in order to enable the Fund to satisfy its obligations under CRS, and to update that information on a continuing basis. Prospective investors should note the Fund's obligation to disclose such information to the Irish tax authority. The Irish tax authority will exchange the information with other tax authorities in participating CRS jurisdictions on an annual basis. Each investor acknowledges that the Fund may take such action as it considers necessary in relation to such investor's holding in the Fund to ensure that any withholding tax suffered by the Fund and any other related costs, interest, penalties and other losses and liabilities arising from such investor's failure to provide the requested information to the Fund is economically borne by such investor. FATCA is the Foreign Account Tax Compliance Act which aims to gather information on overseas accounts held by US Persons and ultimately ensure that the correct amount of tax is paid by US taxpayers. FATCA enforces reporting obligations on foreign Financial Institutions ("FIs") where these accounts are held. The Directors intend that the Company will continue to be compliant with FATCA and the relevant Intergovernmental Agreement (IGA) regulations. The Company has been classified as a Reporting Model 1 Foreign Financial Institution with the GIIN: F8WC9R.99999.SL.372.

In general the Directors intend that each Fund available to the UK will be certified by HM Revenue & Customs in the UK as reporting funds. The reporting fund status will remain in place permanently provided that the annual reporting requirements are satisfied. In broad terms, a "reporting fund" is an offshore fund that meets certain annual reporting requirements to HM Revenue & Customs and its investors. The Directors intend to manage the affairs of the Company so that these annual duties are met and will continue to be met on an ongoing basis.

German equity ratios are calculated and distributed daily.

DAC6 – Disclosure requirements for reportable cross-border tax arrangements

On 25 May 2018, the European and Financial Affairs Council ("ECOFIN") formally adopted Council Directive (EU) 2018/822 ("the DAC6") which provides for mandatory disclosure rules for certain cross-border arrangements. The Directive is the latest in a number of measures designed to strengthen tax transparency and to fight against what is regarded as aggressive cross-border tax planning.

DAC6 imposes mandatory reporting requirements on EU-based tax advisors, accountants, lawyers, banks, financial advisors and other intermediaries who design, market, organise, make available for implementation or manage the implementation of potentially aggressive cross-border tax planning schemes. It also covers persons who provide aid, assistance or advice in relation to potentially aggressive cross-border tax-planning schemes, where they can be reasonably expected to know that they have performed that function. If the intermediary is located outside the EU or is bound by legal professional privilege, the obligation to report can pass to the Fund in certain instances, as the taxpayer.

An arrangement is reportable if it falls within certain hallmarks. These hallmarks are very broadly defined and have the potential to capture a wide range of transactions.

DAC6 was transposed into Irish law by Chapter 3A, Part 33, Taxes Consolidation Act 1997, which was introduced by section 67 of Finance Act 2019. Reportable transactions, where the first implementation step of a cross-border arrangement occurs between 1 July 2020 and 31 December 2020, is required to be reported by 31 January 2021. Reportable transactions, where the first implementation step of a cross-border arrangement occurred between 25 June 2018 and 1 July 2020, is required to be reported by 28 February 2021.

Any reportable transactions that occur from 1 January 2021 are required to be reported within 30 days.

for the financial year ended 31 December 2020 (continued)

Note 3 Financial risks

Global Exposure

Per the UCITS Regulations, and as part of the risk management and reporting requirements, the Funds must be monitored and measured in accordance with the regulatory requirements. In accordance with the regulatory requirements, global exposure can be calculated in two ways, either:

- i) the Commitment Approach that calculates the incremental exposure generated by the instruments held in the Funds; or
- ii) Value at Risk ("VaR"), where complex investment strategies are used. The VaR measure estimates the potential loss of the portfolio over a pre-defined year of time given a specified confidence level. The VaR methodology is a statistical measurement that produces a single aggregate result for the overall portfolio, taking into consideration the market volatilities of all the markets and assets as well as their correlations allowing for offsetting across different assets and markets.

The Funds use the commitment approach to measure global exposure.

The Funds' activities expose them to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The ability of a Fund to achieve significant correlation between the performance of the Fund and the Index it tracks may be affected by changes in securities markets, changes in the composition of the Index, cash flows into and out of the Fund and the fees and expenses of the Fund. The Fund will seek to track Index returns regardless of the current or projected performance of the Index or of securities comprising the Index. As a result, the Fund's performance may be less favourable than that of a portfolio managed using an active investment strategy. The structure and composition of the Index will affect the performance, volatility and risk of the Index (in absolute terms and by comparison with other indices), and consequently, the performance, volatility and risk of the Fund.

Market risks

Price risk

The Funds are exposed to equity price risk. This arises from investments held by the Funds for which prices in the future are uncertain. The investments of the Funds are subject to general economic conditions, normal market fluctuations and the risks inherent in investment in international securities markets. The Funds' exposure to market price risk is the total value of financial assets and financial liabilities at fair value through profit or loss as set out in the Statement of Financial Position.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 3 Financial risks (continued)

Market risks (continued)

With all other factors unchanged the sensitivity of the Funds to a 10% fluctuation in market prices of Transferable securities which is managements best estimate of a reasonable possible shift in the market prices, is set out in the table below:

Fund	Estimated NAV increase/ (decrease) 2020	Estimated NAV increase/ (decrease) 2019
MSCI USA UCITS ETF	USD207,253,075	USD183,888,743

Note 3 Financial risks (continued)

Market risks (continued)

Currency risk

The Funds may invest in securities that are denominated in currencies that differ from the base currency. Changes in the values of those currencies relative to the base currency may have a positive or negative effect on the values of the Funds' investments denominated in those currencies.

The below tables include traded foreign forward currency contracts related to share class hedging. As at 31 December 2020, the following Funds participated in share class hedging: MSCI USA UCITS ETF, S&P 500 UCITS ETF, MSCI Australia UCITS ETF, MSCI United Kingdom IMI Socially Responsible UCITS ETF, Factor MSCI USA Low Volatility UCITS ETF, Factor MSCI USA Prime Value UCITS ETF, Factor MSCI USA Quality UCITS ETF, MSCI USA Select Factor Mix UCITS ETF, MSCI ACWI Socially Responsible UCITS ETF, MSCI ACWI ESG Universal UCITS ETF, Global Gender Equality UCITS ETF, S&P 500 ESG UCITS ETF, MSCI USA Socially Responsible UCITS ETF and MSCI World Socially Responsible UCITS ETF. As at 31 December 2019, the following Funds participated in share class hedging: MSCI USA UCITS ETF, S&P 500 UCITS ETF, MSCI Australia UCITS ETF, MSCI United Kingdom IMI Socially Responsible UCITS ETF, Factor MSCI USA Low Volatility UCITS ETF, Factor MSCI USA Prime Value UCITS ETF, Factor MSCI USA Quality UCITS ETF, MSCI USA Select Factor Mix UCITS ETF, MSCI ACWI Socially Responsible UCITS ETF, MSCI ACWI ESG Universal UCITS ETF, Global Gender Equality UCITS ETF and S&P 500 ESG UCITS ETF.

The Funds may, but will not necessarily, invest in currency exchange contracts to help reduce exposure to different currencies; however there is no guarantee that these contracts will successfully do so. Also, these contracts may reduce or eliminate some or all of the benefit that a Fund may experience from favourable currency fluctuations.

At 31 December 2020, the following Fund has no exposure to currencies other than USD: MSCI USA Value UCITS ETF. The remaining Funds exposure to currencies other than their functional currency is set out in the tables below.

The table below summarises the sensitivity of the foreign currency exposed Funds' monetary and non-monetary assets and liabilities to changes in foreign exchange movement. The analysis is based on the assumptions that the relevant foreign exchange rate increased or decreased against the Fund's presentation currency by the percentages disclosed in the table below, with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the foreign exchange rates, having regard to historical volatility of those rates.

Fund	Ccy	Impact of 10% increase/ (decrease) 2020	Impact of 10% increase/ (decrease) 2019

* The Fund launched on 30 April 2020.

** The Fund launched on 7 May 2020.

This sensitivity analysis is a relative estimate of risk and is not intended to be predictive of future results.

Interest rate risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities (fair value interest rate risk) and future cash flows (cash flow interest rate risk). As interest rates rise, the values of debt securities or other income-producing investments are likely to fall. This risk is generally greater for obligations with longer maturities.

At 31 December 2020 and at 31 December 2019, none of the Funds hold interest-bearing securities. Cash holdings of the Funds are not subject to significant interest rate risk.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 3 Financial risks (continued)

Market risks (continued)

Concentration risk

Because the Company's assets may be invested in a limited number of investments which may be concentrated in a few countries the negative impact on the value of the Company's assets from adverse movements in a particular economy could be considerably greater than if the Company were not permitted to concentrate its investments to such an extent.

Asset classifications are based on the domicile of the portfolio only.

The significant concentrations of each Fund's investments to particular countries by the Funds asset portfolio are disclosed in the following tables.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 3 Financial risks (continued)

Credit risk

The Funds are exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The Funds are exposed to credit risk on financial assets at fair value through profit or loss, cash and cash equivalents, margin cash and other receivable balances.

The maximum exposure of the Funds to credit risk as at 31 December 2020 and 31 December 2019 is the value of their assets as stated on the Statement of Financial Position.

The Funds minimise concentrations of credit risk by undertaking transactions with counterparties on recognised and reputable exchanges, where applicable. OTC derivative transactions are subject to the risk that a counterparty to the transaction will not fulfill its contractual obligations to the other party, as many of the protections afforded to exchange traded derivative transactions might not be available for OTC derivative transactions. For financial derivatives instruments traded on exchanges or clearinghouses, the primary credit risk is the creditworthiness of the Fund's clearing broker or the exchange or clearinghouse itself.

The Funds transferable securities, with the exception of transferable securities on loan, and cash are held within the depositary's network as of 31 December 2020 and 31 December 2019. Details of the credit risk relating to assets held with the Depositary are disclosed on the following page. Refer to note 9 to the financial statements for details of Funds participating in the securities lending program and the associated risks.

Counterparty risk

The Funds may be subject to credit risk with respect to any counterparties with which the Company, on behalf of the Funds, enters into financial derivative instruments and other transactions such as securities lending transactions. If a counterparty becomes insolvent or otherwise fails to perform its obligations, a Fund may experience significant delays in obtaining any recovery in an insolvency, bankruptcy, or other reorganisation proceeding and may obtain only a limited recovery or may obtain no recovery.

The Funds minimise concentrations of OTC counterparty risk by undertaking transactions with a large number of counterparties. The Company's Prospectus and the UCITS Regulations list various investment restrictions with regard to issuer and counterparty concentration limits and minimum counterparty credit ratings. UBS AG conducts periodic reviews of the counterparties with whom they conduct transactions. The Investment Manager also monitors each Fund's counterparty exposures.

The forward foreign currency exchange contracts held on the Funds are traded for foreign exchange hedging purposes on specific share classes as opposed to being used for investment purposes at the respective Fund level. The foreign exchange hedging exposure as of 31 December 2020 and 31 December 2019 is recognised in the tables of the currency risk section of this note.

At 31 December 2020 the following Funds had exposure to counterparty risk through the forward foreign currency contracts held with Bank of America (rated A+ by S&P), Barclays Bank (rated A by S&P), Canadian Imperial Bank of Commerce (rated A+ by S&P), Citibank (rated A+ by S&P), Goldman Sachs International (rated A+ by S&P), HSBC Bank (rated A+ by S&P), JPMorgan Chase Bank (rated A- by S&P), Morgan Stanley (rated A+ by S&P), State Street Bank London (rated AA- by S&P), UBS AG (rated A+ by S&P) and Westpack Banking Corporation (rated AA- by S&P): MSCI USA UCITS ETF, S&P 500 UCITS ETF, MSCI Australia UCITS ETF, MSCI USA hedged to EUR UCITS ETF, MSCI USA hedged to CHF UCITS ETF, MSCI United Kingdom IMI, Socially Responsible UCITS ETF, Factor MSCI USA Low Volatility UCITS ETF, Factor MSCI USA Prime Value UCITS ETF, Factor MSCI USA Quality UCITS ETF, MSCI USA Select Factor Mix UCITS ETF, MSCI ACWI Socially Responsible UCITS ETF, MSCI ACWI ESG Universal UCITS ETF, Global Gender Equality UCITS ETF, S&P 500 ESG UCITS ETF, MSCI USA Socially Responsible UCITS ETF and MSCI World Socially Responsible UCITS ETF.

Credit risk (continued)

Counterparty risk (continued)

At 31 December 2019 the following Funds had exposure to counterparty risk through the forward foreign currency contracts held with Citibank (rated A+ by S&P), JPMorgan Chase Bank (rated A- by S&P), State Street Bank London (rated AA- by S&P) and UBS AG (rated A+ by S&P): MSCI USA UCITS ETF, S&P 500 UCITS ETF, MSCI Australia UCITS ETF, MSCI USA hedged to EUR UCITS ETF, MSCI USA hedged to CHF UCITS ETF, MSCI United Kingdom IMI Socially Responsible UCITS ETF, Factor MSCI USA Low Volatility UCITS ETF, Factor MSCI USA Prime Value UCITS ETF, Factor MSCI USA Quality UCITS ETF, MSCI USA Select Factor Mix UCITS ETF, MSCI ACWI Socially Responsible UCITS ETF, MSCI ACWI ESG Universal UCITS ETF, Global Gender Equality UCITS ETF and S&P 500 ESG UCITS ETF.

At 31 December 2020 the following Funds had exposure to counterparty risk through the futures contracts held with UBS AG which is rated A+ by S&P: MSCI USA UCITS ETF, MSCI USA Value UCITS ETF, MSCI World UCITS ETF, S&P 500 UCITS ETF, MSCI Australia UCITS ETF, MSCI USA hedged to EUR UCITS ETF, MSCI USA hedged to CHF UCITS ETF, MSCI United Kingdom IMI Socially Responsible UCITS ETF, Factor MSCI USA Low Volatility UCITS ETF, Factor MSCI USA Prime Value UCITS ETF, Factor MSCI USA Quality UCITS ETF, MSCI USA Select Factor Mix UCITS ETF, MSCI ACWI Socially Responsible UCITS ETF, MSCI ACWI ESG Universal UCITS ETF, S&P 500 ESG UCITS ETF, MSCI USA Socially Responsible UCITS ETF and MSCI World Socially Responsible UCITS ETF.

At 31 December 2019 the following Funds had exposure to counterparty risk through the futures contracts held with UBS AG which is rated A+ by S&P: MSCI USA UCITS ETF, MSCI USA Value UCITS ETF, MSCI World UCITS ETF, S&P 500 UCITS ETF, MSCI Australia UCITS ETF, MSCI USA hedged to EUR UCITS ETF, MSCI USA hedged to CHF UCITS ETF, MSCI United Kingdom IMI Socially Responsible UCITS ETF, Factor MSCI USA Low Volatility UCITS ETF, Factor MSCI USA Prime Value UCITS ETF, Factor MSCI USA Quality UCITS ETF, MSCI USA Select Factor Mix UCITS ETF, MSCI ACWI Socially Responsible UCITS ETF, MSCI ACWI ESG Universal UCITS ETF and S&P 500 ESG UCITS ETF.

Depository risk

The Funds' Depository is State Street Custodial Services (Ireland) Limited ("Depository"). Substantially all of the assets and cash of the Funds are held within the depository network. Bankruptcy or insolvency of the Depository or of its parent company State Street Corporation may cause the Funds rights with respect to its investments in securities held by the Depository to be delayed. The maximum exposure to this risk at 31 December 2020 and at 31 December 2019 is the Total Fair Value of Investments disclosed in the Schedule of Investments and the value of cash as detailed in the Statement of Financial Position.

State Street Custodial Services (Ireland) Limited is rated AA- (2019: AA-) by S&P.

The majority of the investments are held by same at financial year end. Investments are segregated from the assets of the Depository, with ownership rights remaining with the Funds. The Depository will ensure that any agents it appoints to assist in safekeeping the assets of the Funds will segregate the assets of the Funds. Thus in the event of insolvency or bankruptcy of the Depository, the Fund's assets are segregated and protected and this further reduces counterparty risk. The Funds will, however, be exposed to the risk of the Depository or certain depositories used by the Depository, in relation to the Funds' cash held by the Depository. In event of the insolvency or bankruptcy of the Depository, the Fund will be treated as a general creditor of the Depository in relation to cash holdings of the Funds.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 3 Financial risks (continued)

Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Funds' listed securities are considered readily realisable, as the majority are listed on a known stock exchange.

Certain investments and types of investments are subject to restrictions on resale, may trade in the over-the-counter market or in limited volume, or may not have an active trading market. Illiquid securities may trade at a discount from comparable, more liquid investments and may be subject to wide fluctuations in market value. It may be difficult for a Fund to value illiquid securities accurately. Also, the Funds may not be able to dispose of illiquid securities or execute or close out FDI transactions readily at a favourable time or price or at prices approximating those at which the Fund currently values them. Illiquid securities also may entail registration expenses and other transaction costs that are higher than those for liquid securities. Funds which held investments in the form of forward foreign currency exchange contracts as of 31 December 2020 and 31 December 2019 are listed under the Counterparty Risk section of this note.

The Company can manage liquidity risk through redemption limits and redemptions in-kind, if necessary. If redemption requests received in respect of Shares of a particular Fund on any Dealing Day total, in aggregate, more than 10% of all of the issued Shares of that Fund on that Dealing Day, the Directors shall be entitled, at their absolute discretion, to refuse to redeem such number of Shares of that Fund on that Dealing Day, in excess of 10% of the issued Shares of the Fund, in respect of which redemption requests have been received, as the Directors shall determine.

Each Fund may allow the Authorised Participant which has been appointed to offer prices for the Shares on any listing stock exchange to redeem Shares in-kind on each Dealing Day, unless otherwise specified in the relevant supplement. In this context, "in-kind" means that, with the consent of the Authorised Participant, rather than delivering cash proceeds in respect of a redemption, the Company will deliver securities or a combination of cash and securities, provided that the asset allocation is subject to the approval of the Depositary.

At 31 December 2020 and at 31 December 2019, all of the assets and liabilities of each Fund (as shown in the Statement of Financial Position) fell due within three months.

Capital risk

The capital of the Funds is represented by the net assets attributable to holders of redeemable participating shares. The amount of net asset attributable to holders of redeemable participating shares can change significantly, as the Funds are subject to subscriptions and redemptions at the discretion of Authorised Participants and Shareholders. The Funds' objective when managing capital is to safeguard the Funds' ability to continue as a going concern in order to provide returns for shareholders, provide benefits for other stakeholders and maintain a strong capital base to support the development of the investment activities of the Funds.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 3 Financial risks (continued)

Fair value

IFRS 13 requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels as defined under IFRS 13.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Furthermore, for those instruments which have significant unobservable inputs (Level 3), IFRS 13, requires disclosures on the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses for the financial year split between those recognised in the Statement of Comprehensive Income, purchases, sales issues and settlements, and a sensitivity analysis of assumptions used in determining the fair value of Level 3 positions.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The majority of the Company's financial assets and liabilities measured at fair value at 31 December 2020 and 31 December 2019 were classified within Level 1 as they are active listed equities and futures contracts, apart from forward foreign currency exchange contracts which are classified within Level 2. In addition to this, as at 31 December 2020 one security held on MSCI World UCITS ETF, NMC Health, one security held on MSCI United Kingdom IMI Socially Responsible UCITS ETF, NMC Health, five securities held on MSCI USA Select Factor Mix UCITS ETF, Achillion Pharmaceuticals, Alder Biopharmaceuticals, Escrow New York REIT, NewStar Financial and Stemline Therapeutics and two securities held on MSCI ACWI ESG Universal UCITS ETF, Legend Holdings and NMC Health, which are classified as Level 3. As at 31 December 2019 one security held on MSCI USA Select Factor Mix UCITS ETF, NewStar Financial, which was classified as Level 3.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 3 Financial risks (continued)

Fair value (continued)

As at 31 December 2020, no security was classified as Level 2. As at 31 December 2019 Alder Biopharmaceuticals, Escrow New York REIT and A Schulman held on MSCI USA Select Factor Mix UCITS ETF, BTS Group Holdings and Piramal Enterprises held on MSCI ACWI Socially Responsible UCITS ETF, Legend Holdings, KCC, Minor International and Piramal Enterprises held on MSCI ACWI ESG Universal UCITS ETF were classified as Level 2. Investments, whose values are based on quoted market prices in active markets, are classified within Level 1, including active listed equities. The Company does not adjust the quoted price for these instruments. The futures contracts held by the Funds as noted on the Funds' Schedule of Investments as at 31 December 2020 and 31 December 2019, are classified within Level 1.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. As Level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or nontransferability, which are generally based on available market information. Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently.

During the financial year ended 31 December 2020, the following transfers of securities between levels took place:

- Level 2 to Level 3: two securities, Alder Biopharmaceuticals and Escrow New York REIT, held on MSCI USA Select Factor Mix UCITS ETF.
- Level 1 to Level 3: one security, NMC Health, held on MSCI World UCITS ETF, MSCI United MSCI Kingdom IMI Socially Responsible UCITS ETF and MSCI ACWI ESG Universal UCITS ETF.
- Level 2 to Level 3: one security, Legend Holdings, held on MSCI ACWI ESG Universal UCITS ETF.

During the financial year ended 31 December 2019, the following transfers of securities between levels took place:

- Level 2 to Level 3: one security, A Schulman held on MSCI USA Select Factor Mix UCITS.

The transfer is primarily due to the availability of quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs. No Level 3 reconciliation and no sensitivity analysis of assumptions used in determining the fair value have been included for these positions as they have been separately identified on the Schedule of Investments and are immaterial to the Company at the financial year ended 31 December 2020 and the financial year ended 31 December 2019. There were no other transfers of securities between the levels in the fair value hierarchy.

IFRS 13 Fair Value Measurement

For each class of assets and liabilities not measured at fair value in the Statement of Financial Position but for which fair value is disclosed, IFRS 13 requires the Company to disclose the Level within the fair value hierarchy which the fair value measurement would be categorised and a description of the valuation technique and inputs used in the technique.

Cash and cash equivalents and bank overdrafts are categorised as Level 1.

Receivable for investments sold, dividends receivable and other receivables include the contractual amounts for settlement of trades and other obligations due to the Fund. Payable for investments purchased and other payables represent the contractual amounts and obligations due by the Fund for settlement of trades and expenses. All receivable and payable balances are categorised as Level 2.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 3 Financial risks (continued)

IFRS 13 Fair Value Measurement (continued)

The puttable value of redeemable shares is calculated based on the net difference between total assets and all other liabilities of each Fund within the Company in accordance with the Funds' offering memorandum. The Funds' shares are traded on an active market. A demand feature is attached to these shares, as they are redeemable at the holders' option. These shares can be bought back by the Funds at any dealing date for cash/assets equal to a proportionate share of the Fund's net asset value attributable to the share class.

A significant proportion of the financial assets at fair value through profit or loss for all the Funds are based on quoted market prices in an active market, and therefore classified within Level 1, it follows that the most appropriate categorisation for net assets attributable to holders of redeemable participating shares within these Funds is Level 1.

Note 4 Fees & Expenses

All of the fees and expenses payable in respect of a Fund are paid as one single fee. This is referred to as the Flat Fee. Out of the aforementioned Flat Fee, the Company will bear all costs incurred in connection with the Company's assets. This includes, but is not limited to, fees and expenses of the Investment Manager or Sub-Investment Manager, Depositary, Administrator, Directors, Distributor or Sub-Distributor and Company Secretary. The Company may pay part or all of its fees to any person that invests in or provides services to the Company or in respect of any Fund.

The following fees and expenses will also be discharged out of the Flat Fee:

- (i) the cost of listing and maintaining a listing of Shares on any Listing Stock Exchange;
- (ii) the cost of convening and holding Directors' and Shareholders' meetings;
- (iii) professional fees and expenses for legal and other consulting services;
- (iv) the costs and expenses of preparing, printing, publishing and distributing prospectuses, supplements, annual and semi-annual reports and other documents to current and prospective Shareholders;
- (v) the costs and expenses arising from any licensing or other fees payable to any Index Provider or other licensor of intellectual property, trademarks or service marks used by the Company;
- (vi) the costs and expenses of any investment adviser appointed by the Investment Manager;
- (vii) such other costs and expenses (excluding non-recurring and extraordinary costs and expenses) as may arise from time to time and which have been approved by the Directors as necessary or appropriate for the continued operation of the Company or of any Fund; and
- (viii) all establishment costs of the Company and the Funds not otherwise referred to above.

The Flat Fee does not include extraordinary costs and expenses (including but not limited to transaction charges, stamp duty or other taxes on the investments of the Company including duty charges for portfolio re-balancing, withholding taxes, commissions and brokerage fees incurred with respect to the Company's investments, interest on borrowings and bank charges incurred in negotiating, effecting or varying the terms of such borrowings, any commissions charged by intermediaries in relation to an investment in the Fund and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the Company all of which will be paid separately out of the assets of the relevant Fund). The Flat Fee is calculated and accrued daily from the Net Asset Value of each Fund and payable monthly in arrears. The Flat Fee of each Fund is as listed below and in the relevant Supplement. If a Fund's expenses exceed the Flat Fee outlined below in relation to operating the Funds, the Distributor or its affiliate will cover any shortfall from its own assets.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 4 Fees & Expenses (continued)

Note 5 Share capital

The authorised share capital of the Company is 500,000,300,002 (five hundred billion, three hundred thousand and two) Shares of no par value divided into 300,002 (three hundred thousand and two) Subscriber Shares of no par value and 500,000,000,000 (five hundred billion) Shares of no par value. The Directors Clemens Reuter and Ian Ashment hold both Subscriber Shares. The Directors are empowered to issue up to all of the Shares of the Company on such terms as they think fit. The Shares entitle the holders to attend and vote at general meetings of the Company and to participate equally (subject to any differences between fees, charges and expenses applicable to different Classes) in the profits and assets of the Fund to which the Shares relate. The Company may from time to time by ordinary resolution increase its capital, consolidate the Shares or any of them into a smaller number of Shares, sub-divide the Shares or any of them into a larger number of Shares or cancel any Shares not taken or agreed to be taken by any person. The Company may by special resolution from time to time reduce its share capital in any way permitted by law. At a meeting of Shareholders, on a show of hands, each Shareholder shall have one vote and, on a poll, each Shareholder shall have one vote for each whole Share held by such Shareholder.

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 5 Share capital (continued)

The Subscriber Shares entitle the holders to attend and vote at general meetings of the Company but do not entitle the holders to participate in the profits or assets of the Company except for a return of capital on a winding-up. The Subscriber Shares do not form part of the net assets of the Funds or the Company and are disclosed by way of this note only.

The issued Redeemable Participating Share capital for each Fund is at all times equal to the Net Asset Value of that Fund. Redeemable Participating Shares are redeemable at the Shareholders option and are classified as financial liabilities. The Redeemable Participating Shares may also be bought and sold in a secondary market where such a market exists.

Share capital transactions (number of shares) for the financial year ended 31 December 2020 and 31 December 2019 and are shown in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

Note 6 Related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

In the opinion of the Directors, the Investment Manager, the Directors, Distributor and the Manager are related parties under IAS 24 "Related Party Transactions".

Directors Andreas Haberzeth, Clemens Reuter and Frank Muesel are employees of Distributor, UBS Asset Management Switzerland AG. Director Ian Ashment is an employee of the Investment Manager.

None of the Directors of the Company had holdings in any of the Funds at 31 December 2020 (31 December 2019: Nil).

The Directors' fees amounting to USD 68,744 were paid out of the Flat Fee during the financial year ended 31 December 2020 (financial year ended 31 December 2019: Nil). Only Independent Directors are entitled to a Director's fee.

The Manager, UBS Fund Management (Luxembourg) S.A., received fees for the financial year ended 31 December 2020 of USD 521,568 (31 December 2019 of USD 410,661) which were paid out of the Flat Fee.

UBS Asset Management (UK) Limited acts as Investment Manager and as UK Facilities Agent of the Company. UBS Asset Management (UK) Limited's fees were paid out of the Flat Fee for the financial year. Please refer to Note 4, Fees & Expenses, for an explanation of the fee structure of the Company. All transactions were entered into in the normal course of business. The Investment Manager fees for the financial year ended 31 December 2020 of USD 9,650,552 (31 December 2019: USD 7,542,210) were paid out of the Flat Fee.

UBS Asset Management Switzerland AG acts as the Distributor of the Company. The Distributor's fees were paid out of the Flat Fee for the financial year. The Distributors' commission and fees amounted to USD 8,341,340 for the financial year ended 31 December 2020 (period after the change of Distributor on 17 June 2019 USD 3,906,612).

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 6 Related parties (continued)

Up to 17 June 2019 UBS AG acted as a distributor of the Company. Broker commissions and fees on purchases and sales of securities for which UBS AG or an associated entity acted as broker amounted to USD 2,223,103 for the financial year ended 31 December 2019.

Baader Bank, Banca IMI SpA, Bank Julius Baer & Co AG, Citigroup London, Credit Suisse Sec (Europe) Limited, DRW Global Markets Limited, Flow Traders B. V., Goldman Sachs International, HSBC London, Jane Street Financial Limited, Morgan Stanley & Co International plc, Optiver V.O.F., RBC Europe Ltd, Societe Generale, Susquehanna International Securities Limited, UBS AG, Unicredit Bank AG and Virtu are the Authorised Participants. Some of these banks also act as market makers on the SIX Swiss Exchange, XETRA Deutsche Börse, London Stock Exchange, Borsa Italiana and Euronext Amsterdam. Flow Traders B. V., Jane Street Financial Limited, Optiver V.O.F., Societe Generale, Susquehanna International Securities Limited and UBS AG acting as combined Authorised Participants, held 100% of the Funds on the primary share register at 31 December 2020 (31 December 2019: 100%), the majority of which are re-sold on the secondary market.

UBS AG is receiving parts of the lending income for performing due diligence checks on the borrowers and maintaining the website.

As at 31 December 2020 and 31 December 2019, MSCI World UCITS ETF and MSCI ACWI ESG Universal UCITS ETF held one equity investment each in UBS Group, related to the parent company. Please see the Schedule of Investments of these Funds and tables below for more details.

Financial Year ended 31 December 2020

	MSCI World UCITS ETF USD	MSCI ACWI ESG Universal UCITS ETF USD

During the financial year 31 December 2020, no commission sharing arrangements ("CSAs") were entered into on behalf of the Company (31 December 2019: None).

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 8 Distributions

The Directors intend to declare distributions out of:

- (i) net income; and/or
- (ii) realised and unrealised gains net of realised and unrealised losses.

In respect of each six month period ending on 31 December and 30 June within 30 calendar days of the end of the relevant financial year end. Any such dividends will be paid within two calendar months after declaration.

The distribution rates per share noted in the tables below are in the functional currency of the Fund, not the currency of the respective share class.

The following distributions were paid for the financial year ended 31 December 2020:

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 9 Securities lending

Securities lending is the temporary transfer of securities from the lender (the Company) to a third party borrower through an appointed lending agent. In exchange for the lent security the borrower provides collateral, prior to the delivery of securities, and pays a fee over the financial year of the loan. All loans within the lending program are open and rolled daily such that they can be terminated on demand.

The Company engages in securities lending for selected, physically replicated Funds with the aim of reducing the investor's net costs. Securities lending with the Company is always overcollateralised with at least 105% margin across all asset classes. An additional safeguard, introduced on 1 April 2014, is that loan balances are capped at 50% of each Fund's Asset Under Management. Funds tracking a "socially responsible" index, an ESG or Gender Equality Index are not in the lending program.

The following Funds are in the securities lending program as at 31 December 2020:

MSCI USA UCITS ETF
 MSCI USA Value UCITS ETF
 MSCI World UCITS ETF
 S&P 500 UCITS ETF
 Solactive Global Pure Gold Miners UCITS ETF
 MSCI Australia UCITS ETF
 MSCI USA hedged to EUR UCITS ETF
 MSCI USA hedged to CHF UCITS ETF
 DJ Global Select Dividend UCITS ETF
 Factor MSCI USA Low Volatility UCITS ETF
 Factor MSCI USA Prime Value UCITS ETF
 Factor MSCI USA Quality UCITS ETF
 MSCI USA Select Factor Mix UCITS ETF

The following Funds were not in the securities lending program as at the 31 December 2020:

MSCI United Kingdom IMI Socially Responsible UCITS ETF
 MSCI ACWI Socially Responsible UCITS ETF
 MSCI ACWI ESG Universal UCITS ETF
 Global Gender Equality UCITS ETF
 S&P 500 ESG UCITS ETF
 MSCI USA Socially Responsible UCITS ETF
 MSCI World Socially Responsible UCITS ETF

In general, lending may only be effected via the Securities Lending Agent (State Street Bank) with the protection of an indemnity against borrower default provided for by State Street Bank and Trust Company (State Street). Collateral is held in a depositary account that is ring-fenced from the lending agent's Balance Sheet. Mark to markets take place on a daily basis to ensure that the required margin levels are consistently maintained. Whilst State Street provides a borrower indemnity and carefully selects its underlying list of borrowers an additional level of oversight is provided for by UBS Credit & Risk to structure a bespoke approved borrower list.

Non-cash collateral received by way of the title transfer collateral arrangements in relation to securities lending transactions cannot be sold, re-invested or pledged.

It should be noted that securities lending is subject to a certain risk where the borrower does not return the borrowed securities according to their obligation, and where the value of the collateral provided does not cover the costs of repurchase of the securities. In such cases, State Street, under the terms of the borrower default indemnity, shall cover the cost of purchasing the replacement securities, subject to certain conditions.

All monetary amounts in this note are stated in USD, including amounts for those Funds with a functional currency other than USD.

Euro	0.8728	0.8938
Swiss Franc	0.9340	0.9930

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 12 Operating segments

The Investment Manager makes the strategic resource allocations on behalf of the Funds. The Investment Manager is responsible for each Fund's entire portfolio and considers each Fund to be a single operating segment.

The Investment Manager's asset allocation decisions are based on a single, integrated investment strategy, to deliver the performance of the relevant Reference Index of each Fund, and each Fund's performance is evaluated by reference to the relevant Reference Index.

The Funds have no assets classified as non-current assets. Each Fund's investments expose it to the performance of the relevant Reference Index.

The Funds have highly diversified portfolios of investments, and no single investment accounts for a significant portion of the Company's income.

Products and services

All of the Company's revenues are derived from one product grouping, namely the portfolio securities invested in by the Funds in order to track the performance of their respective indices.

Geographical areas

The Company does not separately monitor revenues from different geographical areas. However, by their nature of tracking indices which represent specific markets in specific regions, each Fund's revenue may be considered as being attributed to the region stated in its investment objective.

Major customers

As the Company is an investment company, its distinct major customers are the Authorised Participants who make the primary market for the Funds' shares.

Note 13 Efficient Portfolio Management

The Company on behalf of a Fund may employ techniques and instruments relating to transferable securities, money market instruments and/or other financial instruments in which it invests for efficient portfolio management purposes.

Repurchase agreements and stock lending agreements may be used by the Funds for efficient portfolio management. State Street Bank International GmbH, Frankfurt Branch, which belongs to the same group as the Depositary bank, acts as securities lending agent for securities lending transactions entered into on behalf of the Funds.

During the financial year ended 31 December 2020 the Company entered into stock lending activities on behalf of the following Funds; MSCI USA UCITS ETF, MSCI USA Value UCITS ETF, MSCI World UCITS ETF, S&P 500 UCITS ETF, Solactive Global Pure Gold Miners UCITS ETF, MSCI Australia UCITS ETF, MSCI USA hedged to EUR UCITS ETF, MSCI USA hedged to CHF UCITS ETF, DJ Global Select Dividend UCITS ETF, Factor MSCI USA Low Volatility UCITS ETF, Factor MSCI USA Prime Value UCITS ETF, Factor MSCI USA Quality UCITS ETF and MSCI USA Select Factor Mix UCITS ETF, see Note 9 for details.

During the financial year ended 31 December 2019 the Company entered into stock lending activities on behalf of the following Funds; MSCI USA UCITS ETF, MSCI USA Value UCITS ETF, MSCI World UCITS ETF, S&P 500 UCITS ETF, Solactive Global Oil Equities UCITS ETF, Solactive Global Pure Gold Miners UCITS ETF, MSCI Australia UCITS ETF, MSCI USA hedged to EUR UCITS ETF, MSCI USA hedged to CHF UCITS ETF, DJ Global Select Dividend UCITS ETF, MSCI EMU Cyclical UCITS ETF, MSCI EMU Defensive UCITS ETF, Factor MSCI USA Low Volatility UCITS ETF, Factor MSCI USA Prime Value UCITS ETF, Factor MSCI USA Quality UCITS ETF, Factor MSCI USA Total Shareholder Yield UCITS ETF, MSCI USA Select Factor Mix UCITS ETF and MSCI World Select Factor Mix UCITS ETF.

Note 16 Significant events during the financial year

The United Kingdom withdrew from the EU and the EEA on 31 January 2020 ("Brexit")

Following Brexit, the United Kingdom entered into a transition period, during which period EU law continued to apply in the United Kingdom. New EU legislation that took effect before the end of the transition period also applies in the United Kingdom. The transition period ended on 31 December 2020. The EU and United Kingdom reached an agreement on the terms governing certain aspects of the EU's and the United Kingdom's relationship following the end of the transition period which is currently in the process of being ratified. Notwithstanding this agreement, there is likely to be considerable uncertainty as to the United Kingdom's post-transition framework, and in particular as to the arrangements which will apply to the United Kingdom's relationships with the EU and with other countries, which is likely to continue to develop following 31 December 2020.

This uncertainty may, at any stage, adversely affect the Company and its investments and/or the Investment Manager. There may be detrimental implications for the value of the Company's investments and/or its ability to implement its investment programme. This may be due to, among other things:

- i) increased uncertainty and volatility in United Kingdom, EU and other financial markets;

Notes to the Financial Statements (continued)

for the financial year ended 31 December 2020 (continued)

Note 16 Significant events during the financial year (continued)

- ii) fluctuations in asset values;
- iii) fluctuations in exchange rates;
- iv) increased illiquidity of investments located, listed or traded within the United Kingdom, the EU or elsewhere;
- v) changes in the willingness or ability of financial and other counterparties to enter into transactions, or the price at which and terms on which they are prepared to transact; and/or
- vi) changes in legal and regulatory regimes to which the Company, the Investment Manager, certain of the Company's assets and/or service providers are or become subject.

Brexit has created a degree of political uncertainty, as well as uncertainty in monetary and fiscal policy, which is expected to continue following the end of the transition period. It may have a destabilising effect on some of the remaining members of the EU, the effects of which may be felt particularly acutely by Member States within the Eurozone.

Potential Implication of Novel Coronavirus

In March 2020, the World Health Organization declared the outbreak of COVID-19 to be a Pandemic. Although progress has been made towards the end of 2020 in managing this Pandemic, including through the continuing development of vaccines, it remains uncertain for how long and how severe the Pandemic will continue to globally and regionally impact the economy. This raises continuing uncertainties in relation to the volatility of asset prices of the fund and the valuation of assets covered in this report.

The Board of Directors and the Investment Managers continue to monitor the management of the Pandemic by governments and hence the economic impact on the portfolio and the fund itself. There is no evidence that the 'going concern' assumption made by the Board of Directors when preparing the financial statements of the fund is inappropriate.

The following Funds launched during the financial year ended 31 December 2020:

There were no other significant events affecting the Company during the financial year end.

Note 17 Significant events after financial year end

The European Union (Statutory Audits) (Directive 2006/43/EC, as amended by Directive 2014/56/EU, and Regulation (EU) NO 537/2014) Regulations 2016 ("S.I. No. 312 of 2016") introduced mandatory statutory audit firm rotation for Public Interest Entities ('PIE'). The Company is considered a PIE under S.I. No. 312 of 2016. As a result, the Company's incumbent statutory independent auditors, PricewaterhouseCoopers, are retiring at the conclusion of the Company's next annual general meeting, during which the succeeding statutory independent auditors will be appointed in accordance with section 383 of the Companies Act.

Effective 1 February 2021, DJ Global Select Dividend UCITS ETF changed name to S&P Dividend Aristocrats ESG UCITS ETF. Fund's Index changed from Dow Jones Global Select Dividend Total Return Net Index to S&P Developed ESG Dividend Aristocrats Total Return Net Index.

¹ The Fund launched on 30 April 2020.

² The Fund launched on 7 May 2020.

UBS Europe SE, Bockenheimer Landstrasse 2-4, D-60306 Frankfurt, Germany has undertaken the function of Paying and Information Agent for the Company in the Federal Republic of Germany (the "German Paying and Information Agent").

Applications for the redemptions and conversion of shares in the Sub-Funds (the "Shares") may be sent to the German Paying and Information Agent.

All payments to investors, including redemption proceeds and potential distributions, may, upon request, be paid through the German Paying and Information Agent.

The Prospectus together with the above listed Supplements, the Key Investor Information Documents (KIIDs), the Memorandum of Association of the Company and the Annual and Semi-Annual Reports are published on the Company's website <http://www.ubs.com/etf>, and may be obtained free of charge in hardcopy at the office of the German Paying and Information Agent during normal opening hours. The statement of changes in the composition of the investment portfolio is also available upon request, free of charge, at the office of the German Paying and Information Agent.

The issue, redemption and conversion prices of the Shares will be published on the Company's website http://www.ubs.com/de/de/asset_management/etfs/etf-private/etf_products/etf_product_overview.0.20.sc_asc.filters.fund domicile__ie.replication_methodology__physical.html in German.

Additional Information for Investors in the Federal Republic of Germany (Unaudited) (continued)

for the financial year ended 31 December 2020 (continued)

Additionally, any notices to shareholders will also be available, free of charge from the German Paying and Information Agent, and will be published on the Company's website www.ubs.com/etf.

Moreover, communication to investors in the Federal Republic of Germany by means of a durable medium (§ 167 KAGB), will be published in the following cases:

- suspension of the redemption of the shares,
- termination of the management of the fund or its liquidation,
- any amendments to the articles of incorporation which are inconstant with the previous investment principles, which affect material investor rights or which relate to remuneration and reimbursement of expenses that may be paid or made out of the asset pool,
- merger of the fund with one or more other funds, and
- change of the fund into a feeder fund or the modification of a master fund.

Additional Information (Unaudited)

for the financial year ended 31 December 2020

Portfolio Turnover Rates (PTRs)

The Portfolio Turnover Ratio (PTR), expressed as a percentage, reflects the volume of dealing in the Sub-Fund. It is equal to the total of purchases and sales of securities netted against the value of the subscriptions and redemptions, over the average net assets of the Sub-Fund for the year. The PTR for the year ending 31 December 2020 is the following:

Fund	PTR %
MSCI USA UCITS ETF	(10.57%)
MSCI USA Value UCITS ETF	47.60%
MSCI World UCITS ETF	3.22%
S&P 500 UCITS ETF	5.24%

*The Company has collateral both bilaterally (State Street Bank and Trust) and via tri-party agents (Bank of New York and JP Morgan Chase Bank). In the case of Bank of New York and JP Morgan Chase Bank agents, State Street Bank and Trust delegates some collateral management duties to these tri-party agents. In all cases the Depositary has delegated collateral management duties to State Street Bank and Trust. State Street Bank and Trust are then permitted to further delegate responsibilities to tri-party agents if they see fit.

Appendix 2 (Unaudited)

UBS FML - Disclosure Annual Report [UCITS and AIFs] – 2020

The Board of Directors of UBS Fund Management (Luxembourg) S.A. (the "Management Company" or the "AIFM") has adopted a remuneration policy (the "Policy") whose objectives are:

on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the "UCITS Law") transposing the UCITS Directive 2009/65/EC (the "UCITS Directive") as amended by Directive 2014/91/EU (the "UCITS V Directive");
- (ii) the Alternative Investment Fund Managers Directive ("AIFMD") 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA's guidelines on sound remuneration policies under the UCITS Directive - ESMA/2016/575 and ESMA's guidelines on sound remuneration policies under the AIFMD - ESMA/2016/579 both published on 14 October 2016;
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EC of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) the CSSF Circular 14/585, transposing the ESMA Guidelines 2013/606 on remuneration policies and practices (MiFID ESMA Guidelines).

and on the other hand, to comply with the UBS Group AG (the "UBS Group") Total Reward Principles.

The Policy is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Policy of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at <https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html>

The Policy is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors. Last approval by the Board of Directors took place on 22 September 2020. No material changes were made to the Policy.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration policy and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organization and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

Appendix 2 (Unaudited) (continued)

UBS FML - Disclosure Annual Report [UCITS and AIFs] – 2020 (continued)

Application of the requirements and remuneration disclosure (continued)

By application of the proportionality principle for the Identified staff, the following requirements on pay-out processes for Identified staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements);

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

Remuneration of Management Company/AIFM staff

The aggregate amounts (pre-audited) of total remuneration, split into fixed and variable, paid by the Management Company/the AIFM to its staff and its Identified Staff during the financial year ended as at 31 December 2020 are as follows:

EUR 1'000	Fixed remuneration	Variable remuneration	Total remuneration	Nb of beneficiaries
All staff	7'975	919	8'894	79
- whereof Identified Staff	3'393	498	3'891	22
- thereof Senior Management*	1'337	285	1'622	7
- thereof Other Identified Staff	2'056	213	2'269	15

* Senior Management includes the CEO, the Conducting Officers, the Head of Compliance and the Independent Director.

Remuneration of delegates staff

As market or regulatory practice develops UBS AM may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBS fund disclosures in that same year.

For the year ending 31 December 2020, the aggregate total remuneration paid by the Investment Manager to its Identified Staff in relation to the Fund amounted to EUR 57,584 of which EUR 35,091 represented the variable remuneration (2 beneficiaries).
